Aberdeen Global is authorised as an undertaking for collective investment in transferable securities under Part I of the Law.

INVESTMENT OBJECTIVE

Aberdeen Global aims to provide investors with a broad international range of diversified actively-managed Funds which, through their specific investment objectives and individual portfolios, offer investors the opportunity of exposure to selected areas or to conveniently build a diversified global stock and bond portfolio to meet their individual investment goals.

FUNDS & BASE CURRENCIES

The Funds are denominated either in US Dollars, or, in a different currency, if that is more appropriate for the market and the type of investments of the Fund concerned. The Base Currency of each Fund is listed under "Fund Information" and can also be found at www.aberdeen-asset.com.

Funds denominated in Sterling will remain denominated in Sterling until such time as the United Kingdom decides to adopt the Euro pursuant to the European Monetary Union legislation. Should the United Kingdom adopt the Euro then those Funds currently denominated in Sterling will be redenominated in Euro with effect from the date the United Kingdom adopts the Euro (and this Prospectus should be read accordingly). The Shareholders of those Funds currently denominated in Sterling will be notified, in advance of this change, when the effective date is known.

TYPES OF SHARES & SHARE PRICE CALCULATIONS

The Shares relating to each Fund are issued in registered form and will be uncertificated. Shares are not available in bearer form. Shares in any Fund will normally be allotted (including Shares rounded to up to four decimal places, if appropriate, to the full value of the amount invested) upon completion of the application procedure described in the section "Dealing in Shares of Aberdeen Global" under "Subscription for Shares" of this Prospectus. Shares can be issued, switched or redeemed during any Dealing Day.

Not all Funds will issue all Classes of Shares. However, investors should refer to www.aberdeen-asset.com for current details of which Classes of Shares are in issue.

The base currency exposure versions of Class A, Class C, Class D, Class F, Class G, Class I, Class N, Class S and Class Z Shares are similarly offered at a price based on their Net Asset Value adjusted to reflect any applicable dealing charges plus, if applicable, an initial charge (for further details of the Share Price calculation see Appendix B – Calculation of Net Asset Value).

Class Z Shares and the base currency exposure versions of Class Z Shares bear no annual management fees.

Share Prices, i.e., Net Asset Values per Share as adjusted to reflect dealing charges, for all Classes of Shares, in all Funds, are calculated on each Dealing Day. The single Share Price for each Fund and Class is the basis for all dealing transactions with the Funds.

Class A, Class D, Class E, Class F, Class L, Class O and Class U Shares and the base currency exposure versions of Class A, Class D Shares and Class F Shares are available to all investors. Class D and Class R Shares are Sterling denominated, Class E, Class H and Class Y Shares are Euro denominated, Class N Shares are Japanese Yen denominated, Class L and Class M Shares are denominated in Singapore Dollars, Class O and Class P Shares are Swiss Franc denominated and Class U and Class V Shares are US Dollar denominated.

Shares are quoted and dealt in the relevant Share Class' designated currency denomination and in other currencies, including (without limitation) US Dollars, Sterling and Euro. For the purposes of being eligible for central clearing systems such as Clearstream or Euroclear and the National Securities Clearing Corporation (NSCC), which may require stock identification numbers or codes (which include a reference to the quoted and dealing currency of the Share in this code or number), these dealing currencies represent individual Share Classes in these systems.

Shares quoted and dealt in currencies other than the relevant Share Class' designated currency denomination are not additional Share Classes in Aberdeen Global and must not be viewed as such. They are the Share Classes quoted and dealt in other currencies with the associated foreign exchange risk.

For information on how to invest see the section on "Subscription for Shares".

BASE CURRENCY EXPOSURE SHARE CLASSES

The Funds may offer base currency exposure Share Classes ("Base Currency Exposure Share Classes") which seek to offer amended currency risk (which can generate greater or lesser risk depending on the Share Class currency and Fund currency exposures), by selling the Base Currency and buying the currency of the relevant Base Currency Exposure Share Class.

The Base Currency Exposure Share Classes are categorised as follows depending on the exposure of the Fund to the Base Currency:

- (A) Base Currency Hedged Share Classes, where the Fund invests at least 80% of its assets in securities denominated in the Base Currency of the Fund (or hedged back to the Base Currency by the Investment Adviser),
- (B) Partial Base Currency Short Share Classes, where the Fund invests between 10-80% of its assets in securities denominated in the Base Currency of the Fund (or hedged back to the Base Currency by the Investment Adviser), and
- (C) Base Currency Short Share Classes, where the Fund invests less than 10% of its assets in securities denominated in the Base Currency of the Fund (or hedged back to the Base Currency by the Investment Adviser).

It should be noted that there may be periods of time when the actual exposure may be more or less than the stated levels above for a Base Currency Exposure Share Class due to a change in the assets in the portfolio of a Fund and/or as a result of redemption and subscription activities. In such circumstances, the category of the relevant Share Class described above will be subject to change. Investors in Base Currency Exposure Share Classes should refer to www.aberdeen-asset.com for details of the Base Currency Exposure Share Classes available for a Fund and its relevant category of exposure at any time.

All Base Currency Exposure Share Classes seek to transpose the currency risk for investors from the Base Currency to the Base Currency Exposure Share Class currency, but will differ in their effect due to the extent that the Fund invests its assets in securities denominated in the Base Currency (or hedged back to the Base Currency by the

PRINCIPAL CHARACTERISTICS OF ABERDEEN GLOBAL CONTINUED

Investment Adviser). Funds that offer Base Currency Exposure Share Classes which are categorised as Base Currency Hedged Share Classes (as described under (A) above) have a significant exposure to the Base Currency, and so the Base Currency Exposure Share Class will be effective in transposing a significant proportion of the Fund's currency exposure to the Base Currency Exposure Share Class currency, thereby offering a form of overall currency hedge. Funds that offer Base Currency Exposure Share Classes which are categorised as Partial Base Currency Short Share Classes (as described under (B) above) and Base Currency Short Share Classes (as described under (C) above) do not have a significant exposure to the Base Currency, and so will not be effective in transposing a significant proportion of the Fund's currency exposure to the Base Currency Exposure Share Class currency and thereby will not provide an overall currency hedge. It should be noted that the alignment between the currency exposure of the Fund's assets and the Base Currency of the Fund will vary over time and that currency gains and losses and corresponding returns may be more volatile than the other non-Base Currency Exposure Share Classes in the same Fund.

Accordingly, Shareholders must bear in mind that investing via Base Currency Exposure Share Classes will impact their investment if the Base Currency Exposure Share Class currency rises or falls against the Base Currency, and also if the Base Currency Exposure Share Class currency rises or falls against the currency in which some or all of the investments of the relevant Funds are denominated. The impact of currency movement could result in a Base Currency Exposure Share Class materially underperforming other non-Base Currency Exposure Share Classes invested in the same Fund.

It should be noted that regardless of the Base Currency Exposure Share Class category, the operational process of using forward foreign exchange contracts remains unchanged and the same process is employed for each type of Share Class, so performance and other characteristics of the Base Currency Exposure Share Classes will be unaffected any change in category resulting from a change in underlying assets.

Aberdeen Global retains the right to redeem in full in cash or in kind any existing Base Currency Exposure Share Class in accordance with sections 7. "Compulsory Redemption-Dissolution" and 9. "In Specie Subscriptions & Redemptions" of Appendix C "General Information" to efficiently offer the currency exposure that it was designed to provide.

GENERAL INFORMATION REGARDING BASE CURRENCY EXPOSURE SHARE CLASSES

The Investment Advisers will utilise various techniques (see Appendix A – "Investment Techniques and Instruments and Use of Financial Derivative Instruments") to manage the currency exposures as described herein, including financial swaps, futures, forward currency exchange contracts, options and other similar derivative transactions deemed appropriate in its discretion but which are within the limits laid down by the CSSF.

The costs associated with Base Currency Exposure Share Class transactions (including transaction costs relating to the instruments and contracts used to implement the exposure) will be attributed to a specific Class and will be reflected in the Net Asset Value of that

Class. An additional fee of up to 0.10% of the Net Asset Value may be charged by the Investment Manager to the relevant Base Currency Exposure Share Class for providing this currency exposure service, part of which fee may be allocated to third parties. Investors are reminded that there is no segregation of liability between Share Classes in the same Fund, so there is a remote risk that under certain circumstances, other Share Class holders of the same Fund will be exposed to liabilities arising from currency exposure transactions undertaken for a Base Currency Exposure Share Class which negatively impacts the Net Asset Value of these other Share Classes. Base Currency Exposure Share Classes contain additional risks which are set out in this Prospectus under the "General Risk Factors" heading.

The currency forwards used will be reviewed and placed monthly as required or at any other time that the Investment Adviser may deem appropriate. It is not possible to manage Base Currency Exposure fully or perfectly against market fluctuations and there is no assurance or guarantee that such Base Currency Exposure management will be effective. No intentional leveraging should result from the Base Currency Exposure share class currency transactions of a Class, However, Base Currency exposure management may for short periods result in a currency exposure in excess of the stated value of the Base Currency exposure Share Class (following a significant redemption for example).

Investors should note that a dilution adjustment may be charged on a Base Currency Exposure Share Class if the cash effect on the Net Asset Value as a result of currency forward activities exceeds 5% of the Net Asset Value of the Fund or any other threshold determined by the Board of Directors (having considered prevailing market conditions) of the issued Shares linked to that Fund.

Investors should also note that the managing of the exposure of Base Currency Exposure Share Classes by the Investment Advisers is distinct from the strategies and techniques that may be adopted at the level of the portfolio of securities held within each Fund.

Investors should refer to www.aberdeen-asset.com for further details before investing in a Base Currency Exposure Share Class.

PAYMENT FOR SHARES

Payment for Shares can be made in Australian Dollars, Euro, Hong Kong Dollars, Japanese Yen, Sterling, Swiss Franc or US Dollars. However, if the currency of investment is different to the currency denomination of the relevant Share Class the necessary foreign exchange transaction will be arranged on behalf of, and at the expense of, the applicant (see the "Methods of Payment" paragraph under "Dealing in Shares of Aberdeen Global" under the "Subscription for Shares" section).

DIVIDENDS

Details of the distribution policy for each Share Class are set out in the section "Dividend Policy" and listed in Appendix D.

Distributions relating to such Shares are made by way of the payment of a dividend. Such distributions may be made out of investment income, capital gains or capital at the discretion of the Board of Directors. Dividends will be paid by bank transfer in the preferred currency of the investor, provided that currency is on the list of currencies offered, which list is available at the registered office of Aberdeen Global, (usually the currency of original investment) at the expense of the investor. If the Shareholder instructs Aberdeen Global to pay out dividends by cheque in a currency other than the currency of denomination of the Fund, the investor will have to bear the bank clearing or collection charges as well as the foreign exchange costs. Dividend amounts of less than US\$25 (or the equivalent in another currency) will, at the discretion of the Board of Directors of Aberdeen Global, not be paid out in cash but will be automatically reinvested, in order to avoid disproportionate costs, notwithstanding an investor's request to pay out dividends.

INVESTMENT PHILOSOPHY AND PROCESS

Equities

The Investment Advisers' views are, given the inefficiency of markets, that long-term returns are achieved by identifying good quality stocks at a reasonable price and holding them for the long term. The Investment Advisers identify companies from first-hand research, and add value from active management, which constitutes intensive and ongoing scrutiny at the company level. No stock is purchased without the Investment Advisers having first met management, and carried out detailed due diligence. An estimate of a company's worth is analysed in two stages, assessing quality then price. Quality is defined with reference to management, business focus, balance sheet and corporate governance. Price is calculated relative to key financial ratios, market, peer group and business prospects. Equity portfolios are generally conservatively run, with an emphasis on traditional buy-and-hold investment resulting in low turnover.

For smaller company Funds, the stock selection criteria remains as above but with an overlay of the maximum market capital at date of purchase.

Fixed Income

The Investment Advisers aim to add value by exploiting market inefficiencies in interest rates, currency, investment grade credit, emerging market debt and high yield. This is achieved by combining a top-down investment approach with bottom up security selection. The top-down investment decisions are derived from fundamental analysis of the global macro economic environment and building an economic framework covering the key economic regions, forming the foundation upon which the Investment Advisers determine investment themes and implements strategies. Bottom-up security selection requires diligent and thoughtful research and the Investment Advisers

hold securities or combinations of securities that reflect their views on the relative valuations of a market or sector of a market.

The Investment Advisers build up a picture of the company's ability to generate free cash flow within its industry, considering factors such as its business plan and capital structure in order to assess the likelihood of the company not paying interest and principal on its debt.

Within high yield Funds, namely Aberdeen Global – Emerging Markets Corporate Bond Fund, Aberdeen Global – Emerging Markets Local Currency Bond Fund, Aberdeen Global - Emerging Markets Short Duration Bond Fund, Aberdeen Global – Select Emerging Markets Bond Fund, Aberdeen Global – Select Euro High Yield Bond Fund, Aberdeen Global – Select Global Credit Bond Fund and Aberdeen Global – Select High Yield Bond Fund, the Investment Advisers' primary focus is on the comparatively higher quality part of the sub-investment grade market.

Distinct investment objectives have been established for each Fund, which, together with their investment policies, where applicable, and Base Currencies, are as follows:

ABERDEEN GLOBAL – ASIA PACIFIC EQUITY FUND

Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in Asia Pacific countries (excluding Japan); and/or, of companies which have the preponderance of their business activities in Asia Pacific countries (excluding Japan); and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Asia Pacific countries (excluding Japan).

Due to the traditionally volatile nature of share prices and the additional country and currency risks, the investor is likely to have an investment horizon of at least five years.

Risk warnings specific to Aberdeen Global – Asia Pacific Equity Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of certain Fund specific risks:

- The Fund's exposure to a specific regional market increases potential volatility.
- The Fund invests in equity and equity-related securities across the Asia Pacific region (excluding Japan), thereby providing exposure to emerging markets which tend to be more volatile than mature markets and its value could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise.

ABERDEEN GLOBAL – ASIA PACIFIC MULTI-ASSET FUND

Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing the majority of the Fund's assets in equity and equity-related securities of companies with their registered office in Asia Pacific countries; and/or, of companies which have the preponderance of their business activities in Asia Pacific countries; and/or, of holding companies that have the preponderance of their assets in companies with their registered office in Asia Pacific countries; and Investment Grade and Sub-Investment Grade Debt and Debt-Related Securities issued by governments, supranational institutions or government-related bodies that are domiciled in Asia Pacific countries; and/or, Debt and Debt-Related Securities issued by companies that have their registered office in an Asia Pacific country; and/or, issued by companies which have the preponderance of their

In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager’s ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Risk warnings specific to Aberdeen Global – Flexible Equity Fund

In addition to the general risk factors set out under “General Risk Factors” potential investors should be aware of certain fund specific risks:

- The Fund is established as a fund of funds and will invest in UCITS and Other UCIs (together referred to as “Investment Funds”) as part of its investment objective and policy. These investments may result in the Fund being subject to management fees or other administrative or performance fees payable at the level of the Investment Funds in addition to those charged at the level of the Fund. Aberdeen Global endeavours to reduce duplication of

management charges by investing in share classes of Investment Funds that do not accrue annual management fees or other equivalent fees or by negotiating rebates in favour of the Fund with the Investment Funds or their managers.

- The Fund may be exposed to Emerging Markets which tend to be more volatile than mature markets and its value could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in emerging markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise.
- Potential investors should note the "Investing in other collective investment schemes" sections of the "General Risk Factors".
- Investors should be aware that due to the alternative investment strategies of the underlying funds, an investment in the Fund may involve a high degree of risk.

ABERDEEN GLOBAL – FRONTIER MARKETS BOND FUND

Investment Objective and Policy

The Fund's investment objective is to achieve income by investing at least two-thirds of the Fund's assets in Debt and Debt-Related Securities which are (i) issued by governments or government related bodies domiciled in a Frontier Debt Market and/or issued by corporations (including holding companies of such corporations) with their registered office, principal place of business or preponderance of their business activities in a Frontier Debt Market; and/or (ii) denominated in the currency of a Frontier Debt Market as at the date of investment.

At least a majority of the Fund will at all times be invested in Sub-Investment Grade Debt and Debt-Related Securities.

The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks, subject to the conditions and within the limits laid down by the CSSF.

Without limiting the generality of the foregoing, the Investment Adviser may alter the currency exposure of the Fund, solely through the use of derivative contracts (without buying or selling underlying Transferable Securities or currencies). Furthermore, the Fund's portfolio may be fully or partially hedged back to the Base Currency if, in the opinion of the Investment Adviser, this is believed to be appropriate.

Investment Adviser:	Aberdeen Asset Managers Limited

Investor Profile:

This Fund gives access to debt securities of Frontier Debt Market and may be suitable for investors willing to accept a high level of risk within the fixed income spectrum. Despite potentially higher long term returns offered by investments in Frontier Debt Market instruments, investors need to be comfortable with the additional political and economic risks associated with frontier market investments. Investors are likely to hold this Fund as a complement to a diversified portfolio and should have an investment horizon of at least five years.

Investors should be aware of the particular dealing arrangements which may be applicable to Aberdeen Global – Frontier Markets Bond Fund and which are referred to in this Prospectus.

Risk warnings specific to Aberdeen Global – Frontier Markets Bond Fund

In addition to the general risk factors set out under "General Risk Factors" potential investors should be aware of certain fund specific risks:

- The Fund's underlying investments are subject to interest rate risk, credit risk and currency risk. Interest rate fluctuations affect the capital value of investments. Where long-term interest rates rise, the capital value of bonds is likely to fall and vice versa. Credit risk reflects the ability of a bond issuer to meet its obligations.
- The Fund invests in fixed interest securities, including Sub-Investment Grade securities. Consequently, the Fund's portfolio may have a significant position in Non-Investment Grade bonds and/or high-yielding bonds, which means that there is more risk to investor's capital and income than from a fund investing in Investment Grade bonds.
- The Fund may utilise financial derivative instruments for investment purposes in pursuing its investment objective (in addition to use for hedging purposes). Use of derivatives other than for hedging may result in leverage and may increase volatility in the Net Asset Value of the Fund.
- The Fund invests in Frontier Debt Markets which tend to be more volatile and be exposed to investment risk including liquidity risk and political risks, and adverse economic circumstances are more likely to arise in such markets. Registration and settlement arrangements in these two markets may be less developed than in more mature markets so the operational risks of investing are higher.
- The Fund invests also in Emerging Markets which tend to be more volatile than mature markets and its value could move sharply up or down. In some circumstances, the underlying investments may become illiquid which may constrain the Investment Manager's ability to realise some or all of the portfolio.
- Performance may be strongly influenced by movements in currency rates because the Fund may have exposure to a particular currency that is different to the value of the securities denominated in that currency held by the Fund.

FUND INFORMATION CONTINUED

- Regulations in the markets in which the Fund invests may require or limit hedging or other use of financial derivative instruments, either explicitly or as a result of the Investment Adviser managing resultant risk.

Risk warnings specific to Aberdeen Global – World Smaller Companies Fund

In addition to the general risk factors set out under “General Risk Factors” potential investors should be aware of certain Fund specific risks:

- The Fund invests in smaller companies where share price volatility may be experienced and above average price movements may be expected.

General Risk Factors

GENERAL

Investors should remember that the price of Shares of any of the Funds and any income from them may fall as well as rise and that investors may not get back the full amount invested. Past performance is not a guide to future performance and the Fund(s) should be regarded as medium to long-term investment(s).

A number of the risk warnings below have been included because the Funds may invest in other collective investment schemes to which these apply. The following statements are intended to summarise some of the risks, but are not exhaustive, nor do they offer advice on the suitability of investments.

INVESTMENT OBJECTIVE

There is no guarantee or assurance that the investment objectives of any of the Funds will be achieved. Investors should also be aware that the investment objectives of a Fund may state that it may invest on a limited basis into areas not naturally associated with the name of the Fund. These other markets may act with more or less volatility than the core investment area and performance will be in part dependent on these investments. Investors should ensure (prior to any investment being made) that they are satisfied with the risk profile of the overall objectives disclosed.

CURRENCY RISK

Where the currency of the relevant Fund varies from the currency invested, or where the currency of the relevant Fund varies from the currencies of the markets in which the Fund invests, there is the prospect of additional loss (or the prospect of additional gain) to the investor greater than the usual risks of investment.

A Fund may invest in securities denominated in a number of different currencies other than the Base Currency in which the Fund is denominated. Changes in foreign currency exchange rates may adversely affect the value of a Fund's investments and the income thereon.

REGULATORY RISK

The Funds are domiciled in Luxembourg and investors should note that all the regulatory protections provided by local regulatory authorities may not apply. Investors should consult their financial advisors for further information in this area.

REGULATORY RISK IN NON-EU JURISDICTIONS

A Fund may be registered in jurisdictions outside of the EU. As a result of such registrations, such Fund may be subject, without any notice to the shareholders in the Fund concerned, to more restrictive regulatory regimes. In such cases such Fund will abide by these more restrictive requirements. This may prevent such Fund from making the fullest possible use of the investment limits.

LIQUIDITY RISK

A Fund may invest in certain securities that subsequently become difficult to sell because of reduced liquidity which would have an adverse impact on market price. Reduced liquidity for such securities may be driven by a specific economic or market event, such as the deterioration in the creditworthiness of an issuer.

COUNTERPARTY RISK

Each Fund may enter into Repurchase Transactions and other contracts that entail a credit exposure to certain counterparties. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, a loss of income and possible additional costs associated with asserting its rights.

SPECIFIC RISKS RELATED TO OTC DERIVATIVE TRANSACTIONS

In general, there is less governmental regulation and supervision of transactions in the OTC markets (in which currencies, forwards and certain options on currencies are generally traded) than of transactions entered into on organised exchanges. In addition, many of the protections afforded to participants on some organised exchanges, such as the performance guarantee of an exchange clearinghouse, may not be available in connection with OTC transactions. Therefore, any Fund entering into OTC transactions will be subject to the risk that its direct counterparty will not perform its obligations under the transactions and that the Fund will incur losses. A Fund will only enter into transactions with counterparties which it believes to be creditworthy, and may reduce the exposure incurred in connection with such transactions through the receipt of letters of credit or collateral from certain counterparties. Regardless of the measures the Fund may seek to implement to reduce counterparty credit risk, however, there can be no assurance that a counterparty will not default or that the Fund will not sustain losses as a result.

INFLATION/DEFLATION RISK

Inflation risk refers to the possibility of a reduction in the value of the income or assets as inflation decreases the value of money. The real value of a Fund's portfolio could decline as a result of increasing inflation. Deflation risk refers to the possibility of a decline in the prices throughout the economy over time. Deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of a Fund's portfolio.

INCREASED VOLATILITY

The value of some Funds may be susceptible to increased volatility as a consequence of the composition of the portfolio or the investment techniques used (e.g. where a Fund has more concentrated portfolio or where a Fund makes more extensive use of Financial Derivative Instruments for investment purposes).

LEVERAGE RISK

Due to the low margin deposits normally required in trading derivative instruments, an extremely high degree of leverage is typical for trading in derivatives instruments. As a result, a relatively small price movement in a derivative contract may result in substantial losses to the investor. Investment in derivative transactions may result in losses in excess of the amount invested.

SUSPENSION OF SHARE CLASS DEALING

Investors are reminded that in certain circumstances their right to redeem from or switch Funds may be suspended (See Appendix C, section 10. "Suspension").

GENERAL RISK FACTORS CONTINUED

WARRANTS

When a Fund invests in warrants, the Price per share of the Fund may fluctuate more than if the Fund was invested in the underlying security(ies) because of the greater volatility of the warrant price.

BASE CURRENCY EXPOSURE SHARE CLASSES

Certain Classes of Shares may be made available in currencies other than the Base Currency of the relevant Fund. The Investment Manager may hedge the Shares of such Classes in relation to the Base Currency of the relevant Fund. Where such hedging is undertaken in Base Currency Hedged Share Classes it may substantially protect investors against a decrease in the value of the Base Currency of the Fund relative to the hedged currency but may also preclude investors from benefiting from an increase in the value of the Base Currency of the Fund or the currencies of the assets in its portfolio.

With Base Currency Exposure Share Classes, the risk of an overall depreciation of a Fund's Base Currency against the alternate currency of the Share Class may be reduced significantly by exposing the Net Asset Value of the respective Class - calculated in the Fund's Base Currency - against the respective alternate currency by means of the financial derivative instruments mentioned under the sections "Base Currency Exposure Share Classes" and "General Information regarding Base Currency Exposure Share Classes". Consequently, it is the currency of the Base Currency Exposure Share Classes that is managed against the Base Currency rather than the investment currencies of the Fund's portfolio. This may result in the Base Currency Exposure Share Class being over or under-exposed at any one time against the investment currencies of the Fund's portfolio. Costs incurred in the process are borne solely by the Share Class concerned.

Investors should be aware that certain market events or circumstances could result in the Investment Manager no longer being able to perform transactions for a Base Currency Exposure Share Class or that such activities may no longer be economically viable.

HOLDING SECURITIES OVERSEAS

Securities held with a local correspondent or clearing/settlement system or securities correspondent ("Securities System") may not be as well protected as those held within Luxembourg. In particular, losses may be incurred as a consequence of the insolvency of the local correspondent or Securities System. In some markets, the segregation or separate identification of a beneficial owner's securities may not be possible or the practices of segregation or separate identification may differ from practices in more developed markets.

RESTRICTED SECURITIES

Aberdeen Global may invest in securities which may only be offered to qualified institutional investors (such as but not limited to QIBS as defined in the US Securities Act of 1933) or other securities that contain restrictions of their negotiability and/or issue. Such investments may be less liquid, making it difficult to acquire or to dispose of such investments which may lead to the Funds experiencing adverse price movements upon any such disposal. Such restricted securities may be but are not limited to securities known as "Rule 144A Securities".

Rule 144A securities are privately offered securities that can be resold only to certain qualified institutional buyers. As such securities are traded among a limited number of investors, certain Rule 144A securities may be illiquid and involve the risk that a Fund may not be able to dispose of these securities quickly or in adverse market conditions.

SMALLER COMPANIES

If an investment in a Smaller Company (as defined for a Fund) falls below or exceeds the capitalisation thresholds determined by Aberdeen Global, the relevant asset will not be sold unless in the opinion of the Investment Adviser, it is in the interest of Shareholders to do so.

POTENTIAL CONFLICTS OF INTEREST

The Management Company and the Investment Manager/Adviser and other companies in the Aberdeen Group may effect transactions in which they have, directly or indirectly, an interest which may involve a potential conflict with the Management Company's duty to the Fund. Neither the Management Company nor the Investment Manager/Adviser nor other companies in the Aberdeen Group shall be liable to account to the Fund for any profit, commission or remuneration made or received from or by reason of such transactions or any connected transactions nor will the Investment Manager/Adviser's fees, unless otherwise provided, be abated. The Management Company and the Investment Manager/Adviser will ensure that such transactions are effected on terms which are not less favourable to the Fund than if the potential conflict had not existed. Such potential conflicting interests or duties may arise because the Investment Manager/Adviser or other members in the Aberdeen Group may have invested directly or indirectly in the Funds. More specifically, the Investment Manager/Adviser, under the rules of conduct applicable to it, must try to avoid conflicts of interests and, where they cannot be avoided, ensure that its clients (including the Fund) are fairly treated.

The Management Company will adopt and implement policies for the prevention of conflict of interests as foreseen by applicable rules and regulations.

SPECIFIC RISKS LINKED TO SECURITIES LENDING AND REPURCHASE/REVERSE REPURCHASE TRANSACTIONS

Whilst value of the collateral of Repurchase/Reverse Repurchase or Securities Lending Agreements will be maintained to at least equal to the value of the securities transferred, in the event of a sudden market movement there is a risk that the value of such collateral may fall below the value of the securities transferred. Aberdeen Global will seek to mitigate this risk by requiring any securities lending agent to indemnify the relevant Funds against such a fall in the value of collateral (save where such collateral has been re-invested at the instructions of the Fund).

In relation to Repurchase Transactions, investors must notably be aware that (A) in the event of the failure of the counterparty with which cash of a Fund has been placed there is the risk that collateral received may yield less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Fund to meet redemption requests, security purchases or, more generally, reinvestment; and that (C) Repurchase Transactions will, as the case may be, further expose a Fund to risks similar to those associated with optional or forward derivative financial instruments, which risks are further described in other sections of this prospectus.

Securities lending involves counterparty risk, including the risk that the loaned securities may not be returned or returned in a timely manner and/or at a loss of rights in the collateral if the borrower or the lending agent defaults or fails financially. This risk is increased when a Fund's loans are concentrated with a single or limited number of borrowers. Investors must notably be aware that (A) if the borrower of securities lent by a Fund fail to return these, there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) in case of reinvestment of cash collateral such reinvestment may (i) create leverage with corresponding risks and risk of losses and volatility, (ii) introduce market exposures inconsistent with the objectives of the Fund, or (iii) yield a sum less than the amount of collateral to be returned; and that (C) delays in the return of securities on loans may restrict the ability of a Fund to meet delivery obligations under security sales.

ASSET-BACKED SECURITIES AND MORTGAGE BACKED SECURITIES

Some Funds may invest their assets in Asset-Backed Securities (ABS) including Mortgage Backed Securities (MBS), which are debt securities based on a pool of assets or collateralised by the cash flows from a specific pool of underlying assets. ABS and MBS assets may be highly illiquid and therefore prone to substantial price volatility. Unless otherwise specifically stated for a Fund, ABS and/or MBS will not represent more than 20% of the Net Asset Value of a Fund.

EXCHANGE RATES

The Funds may invest in securities denominated in a number of different currencies other than the Base Currency in which the Funds are denominated. Changes in foreign currency exchange rates may adversely affect the value of a Fund's investments and the income thereon.

TAXATION

Investors should note in particular that the proceeds from the sale of securities in some markets or the receipt of any dividends or other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source. Tax law and practice in certain countries into which a Fund invests or may invest in the future (in particular Russia and other emerging markets) is not clearly established. Tax law and practice may equally be subject to change in developed countries, where governments implement fiscal reforms. It is possible therefore that the current interpretation of the law or understanding of practice might change, or that the law might be changed with retrospective effect. It is therefore possible that Aberdeen Global could become subject to additional taxation in such countries that is not anticipated either at the date of the Prospectus or when investments are made, valued or disposed of.

In relation to Brazil, investors should be aware that the Brazilian Presidential Decree no. 6.306/10, as amended from time to time, details the current IOF tax rate (Tax on Financial Operations), that applies to foreign exchange inflows and outflows. Funds investing in Brazil, where IOF tax is not offset by a dilution adjustment may see the Net Asset Value per Share reduced as a consequence.

FINANCIAL DERIVATIVE INSTRUMENTS

A Fund may invest in financial derivative instruments as part of its strategy.

As detailed under section "Investment Techniques and Instruments and Use of Financial Derivative Instruments" Aberdeen Global may use, under certain conditions, options on indices and interest rates, bond futures and futures on indices and interest rates for investment purposes. Also, the Funds may hedge market and currency risks using futures, options and forward exchange contracts within the limits described in the section "Investment Techniques and Instruments and Use of Financial Derivative Instruments".

Different financial derivative instruments involve different levels of exposure to risk and can entail a high degree of leverage. In particular, investors should be aware of the following:

a) Futures

Transactions in futures involve the obligation to make, or to take, delivery of the underlying asset of the contract at a future date, or in some cases to settle the Fund's position with cash. They carry a high degree of risk. The "gearing" or "leverage" often obtainable in futures trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small market movement can lead to a proportionately much larger movement in the value of the Fund's investment, and this can work against the Fund as well as for the Fund. Futures transactions have a contingent liability, and investors should be aware of the implications of this, in particular the margining requirements.

b) Swaps

The Fund may enter into swap agreements. Swap agreements can be individually negotiated and structured to include exposure to a variety of different types of investments or market factors.

Depending on their structure, swap agreements may increase or decrease the Fund's exposure to strategies, equity securities, long term or short term interest rates, foreign currency values, corporate borrowing rates or other factors. Swap agreements can take many different forms and are known by a variety of names.

Depending on how they are used, swap agreements may increase or decrease the overall volatility of the Fund. The most significant factor in the performance of swap agreements is the change in the individual equity values, the Fund's net asset value, specific interest rate, currency or other factors that determine the amounts of payments due to and from the counterparties.

If a swap agreement calls for payments by the Fund, the Fund must be prepared to make such payments when due. In addition, if a counterparty's creditworthiness declines, the value of swap agreements with such counterparty can be expected to decline, potentially resulting in losses to the Fund.

c) Options

There are many different types of options with different characteristics subject to different conditions:

(i) Buying Options

Buying options involves less risk than selling options because, if the price of the underlying asset moves against the Fund, the Fund can simply allow the option to lapse. The maximum loss is limited to the premium, plus any commission or other transaction charges. However, if the Fund buys a call option on a futures contract and the Fund later exercises the option, the Fund will acquire the future. This will expose the Fund to the risks described under "Futures" and "Contingent Liability Transactions".

(ii) Writing Options

If the Fund writes an option, the risk involved is considerably greater than buying options. The Fund may be liable for margin to maintain its position and a loss may be sustained well in excess of any premium received. By writing an option, the Fund accepts a legal obligation to purchase or sell the underlying asset if the option is exercised against the Fund, however far the market price has moved away from the exercise price. If the Fund already owns the underlying asset which the Fund has contracted to sell (known as "covered call options") the risk is reduced. If the Fund does not own the underlying asset (known as "uncovered call options") the risk can be unlimited. Subject to the overall limit on leverage which may be utilised by the Fund, there is no restriction on the Fund's ability to write options. Certain options markets operate on a margined basis under which buyers do not pay the full premium on their option at the time they purchase it. In this situation the Fund may subsequently be called upon to pay margin on the option up to the level of its premium. If the Fund fails to do so as required, the Fund's position may be closed or liquidated in the same way as a futures position.

(iii) Contracts for Differences

Futures and options contracts can also be referred to, as well as include, contracts for differences. These can be options and futures on any index, as well as currency and interest rate swaps. However, unlike other futures and options, these contracts can only be settled in cash. Investing in a contract for differences carries the same risks as investing in a future or option. Transactions in contracts for differences may also have a contingent liability and an investor should be aware of the implications of this as set out below.

(iv) Off-Exchange Transactions

While some off-exchange markets are highly liquid, transactions in off-exchange, or non transferable, derivatives may involve greater risk than investing in on-exchange derivatives instruments because there is no exchange market on which to close out an open position. It may be impossible to liquidate an existing position, to assess the value of the position arising from an off-exchange transaction or to assess the exposure to risk. Bid and offer prices need not be quoted, and even where they are, they will be established by dealers in these instruments and, consequently, it may be difficult to establish what is a fair price.

(v) Contingent Liability Transactions

Contingent liability transactions which are margined require the Fund to make a series of payments against the purchase price, instead of paying the whole purchase price immediately. If the Fund trades in futures, contracts for differences or sells options, the Fund may sustain a total loss of the margin it deposits with the broker to establish or maintain a position. If the market moves against the Fund, the Fund may be called upon to pay substantial additional margin at short notice to maintain the position. If the Fund fails to do so within the time required, its position may be liquidated at a loss and the Fund will be liable for any resulting deficit. Even if a transaction is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when the contract was entered into. Contingent liability transactions which are not traded on or under the rules of a recognised or designated investment exchange may expose you to substantially greater risks.

(vi) Suspensions of Trading

Under certain trading conditions it may be difficult or impossible to liquidate a position. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange trading is suspended or restricted. Placing a stop-loss order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an order at the stipulated price.

(vii) Clearing House Protections

On many exchanges, the performance of a transaction by a broker (or the third party with whom he is dealing on the Fund's behalf) is "guaranteed" by the exchange or its clearing house. However, this guarantee is unlikely in most circumstances to cover the Fund as the customer and may not protect the Fund if the broker or another party defaults on its obligations to the Fund. There is no clearing house for traditional options, nor normally for off-exchange instruments which are not traded under the rules of a recognised or designated investment exchange.

(viii) Insolvency

A derivative broker's insolvency or default, or that of any other brokers involved with the Fund's transactions, may lead to positions being liquidated or closed out without the Fund's consent. In certain circumstances, the Fund may not get back the actual assets which it lodged as collateral and the Fund may have to accept any available payment in cash.

RISKS RELATING TO INVESTMENT IN OTHER FUNDS

Investing in other collective investment schemes

A Fund incurs costs of its own management and administration comprising the fees paid to the Management Company and other service providers. It should be noted that, in addition, such a Fund incurs similar costs in its capacity as an investor in UCITS or Other UCI's (together referred to as "Investment Funds") which in turn pay similar fees to their manager and other service providers. Furthermore, the investment strategies and techniques employed by certain Investment Funds may involve frequent changes in positions and a consequent portfolio turnover. This may result in brokerage commission expenses which exceed significantly those of other Investment Funds of comparable size. Investment Funds may be required to pay performance fees to their manager. Under these arrangements the managers will benefit from the appreciation, including unrealised appreciation of the investments of such Investment Funds, but they may not be similarly penalised for realised or unrealised losses. As a consequence, the direct and indirect costs borne by a Fund investing in Investment Funds are likely to represent a higher percentage of the Net Asset Value than would typically be the case for a Fund which invests directly in the relevant underlying investments (and not through other Investment Funds).

As a shareholder of another collective investment scheme, a Fund would bear, along with other shareholders, its pro rata portion of the expenses of the other collective investment scheme, including management and/or other fees (excluding subscription or redemption charges). These fees would be in addition to the Management Fee and other expenses which a Fund bears directly in connection with its own operations.

Reliance on third party fund management

A Fund investing in other collective investment schemes will not have an active role in the day-to-day management of the collective investment schemes in which a Fund invests. Moreover, a Fund will generally not have the opportunity to evaluate the specific investments made by any underlying collective investment schemes before they are made. Accordingly, the returns of a Fund will primarily depend on the performance of these unrelated underlying fund managers and could be substantially adversely affected by the unfavourable performance of such underlying fund managers.

Performance Fees

Investors should note that any performance fee payable will be based on net realised and net unrealised gains and losses at the end of each performance fee calculation period and consequently performance fees may be paid on unrealised gains which may subsequently never be realised.

The existence of a performance fee may create an incentive for the Investment Manager to make riskier or more speculative investments than would otherwise be made in the absence of such performance fees. Such investments will be made in accordance with the investment objective, policy and process stated in this Supplement.

For the avoidance of doubt, investors should note that performance fees will not be calculated on a Share-by-Share basis and no equalisation or series of shares methodology will apply. As such, performance fees payable may not reflect the individual performance of the Shares in question.

Investing in Real Estate

Investing in the securities of companies principally engaged in the real estate industry will entail risks normally associated with owning real estate directly. These risks include, but are not limited to: the cyclical nature of real estate values; risks related to general and local economic conditions; overbuilding; low tenancy occupation rates and increased competition; the level of property taxes and operating expenses, demographic trends; changes in zoning laws; casualty or condemnation losses; environmental risks; related party risks; increases in interest rates. An increase in interest rates will generally lead to an increase in the costs of financing, which could directly and indirectly reduce the value of a fund's investments.

Convertible bond arbitrage

Underlying fund managers may engage in convertible bond arbitrage. Positions intended to offset against each other may not move as expected. In addition to risks associated with fixed income investments, this strategy also has risks which are associated with equity investments. They include: (i) risks in takeovers or merger transactions, during which a convertible bond's conversion premium may decrease or be eliminated; (ii) short equity buy-in risk, since the strategy is typically long convertibles and short equities and is subject to possible short squeezes; and (iii) liquidity and trading spread risks. Although underlying fund managers are, generally, expected to hedge all equity exposure, there can be no assurance that an Underlying Fund Manager will not, from time to time, have such exposures or that such hedges will be effective.

RISKS RELATED TO INVESTMENT IN EMERGING MARKETS

Investing in Russia and CIS

Investments in Russia and CIS either through the Russian Trading System (RTS) and Moscow Interbank Currency Exchange (MICEX) or on other non-Regulated Markets are subject to increased risk with regard to ownership and custody of securities.

There are significant risks inherent in investing in Russia and the CIS including: (a) delays in settling transactions and the risk of loss arising out of the systems of securities registration and custody; (b) the lack of corporate governance provisions or general rules or regulations relating to investor protection; (c) pervasiveness of corruption, insider trading, and crime in the Russian and CIS economic systems; (d) difficulties associated in obtaining accurate market valuations of many Russian and CIS securities, based partly on the limited amount of publicly available information; (e) tax regulations are ambiguous and unclear and there is a risk of imposition of arbitrary or onerous taxes; (f) the general financial condition of Russian and CIS companies, which may involve particularly large amounts of inter-company debt; (g) banks and other financial systems are not well developed or regulated and as a result tend to be untested and have low credit ratings and (h) the risk that the governments of Russia and CIS member states or other executive or legislative bodies may decide not to continue to support the economic reform programs implemented since the dissolution of the Soviet Union.

The concept of fiduciary duty on the part of a company's management is generally non-existent. Local laws and regulations may not prohibit or restrict a company's management from materially changing the company's structure without shareholder consent. Foreign investors cannot be guaranteed redress in a court of law for breach of local laws, regulations or contracts. Regulations governing securities investment may not exist or may be applied in an arbitrary and inconsistent manner.

Evidence of legal title in many cases will be maintained in "book-entry" form and a Fund could lose its registration and ownership of securities through fraud, negligence or even oversight. Securities in Russia and in the CIS are issued only in book entry form and ownership records are maintained by registrars who are under contract with the issuers. The registrars are neither agents of, nor responsible to, Aberdeen Global, the Custodian or their local agents in Russia or in the CIS. Transferees of securities have no proprietary rights in respect of securities until their name appears in the register of holders of the securities of the issuer. The law and practice relating to registration of holders of securities are not well developed in Russia and in the CIS and registration delays and failures to register securities can occur. Although Russian and CIS sub-custodians will maintain copies of the registrar's records ("Records") on its premises, such Records may not, however, be legally sufficient to establish ownership of securities. Further a quantity of forged or otherwise fraudulent securities, Records or other documents are in circulation in the Russian and CIS markets and there is therefore a risk that a Fund's purchases may be settled with such forged or fraudulent securities. In common with other emerging markets, Russia and the CIS have no central source for the issuance or publication of corporate actions information. The Custodian therefore cannot guarantee the completeness or timeliness of the distribution of corporate actions notifications.

Although exposure to these equity markets is substantially hedged through the use of ADRs and GDRs, Funds may, in accordance with their investment policy, invest in securities which require the use of local depository or custodial services.

Investing in China

Investments in China are currently subject to certain additional risks. Part of the assets of certain of the Funds may be invested in local Chinese securities through the use of a QFII or a RQFII licence. Although the laws of China permit setting up nominee accounts for clients of investment managers who are QFIIs/RQFIIs, the Chinese regulators required that the QFII/RQFII name be used to set up the securities and other accounts on behalf of the relevant Funds. As a result, assets of a Fund may not be deemed to be segregated from other investments of the QFII/RQFII and therefore they may be less protected than keeping the relevant Fund's assets in a separate account in its own name. However, it has been clarified with the Chinese regulators that the assets belong to the relevant Fund and not the QFII/RQFII licence-holder. Notwithstanding this, in the event of the default of the QFII/RQFII, there is a risk that creditors of the QFII may attempt to assert that the securities and other assets in the accounts are owned by the QFII/RQFII and not the relevant Fund. If a court upholds such an assertion, creditors of the QFII/RQFII could seek payment from the assets of the relevant Fund.

China RQFII risks - Investment through Investment Adviser's RQFII Quota.

Under the prevailing regulations in China, foreign investors can only invest in RQFII Eligible Securities through institutions that have obtained RQFII status in China. The current RQFII Regulations impose strict restrictions (such as investment guidelines) on RQFII Eligible Securities investment. A Fund itself is not a RQFII, but a Fund may invest directly in RQFII Eligible Securities via the Investment Adviser's RQFII quota granted under the RQFII Regulations.

RQFII systems risk

The prevailing rules and regulations governing RQFIIs under the RQFII Regulations impose restrictions on investments and other operational aspects of investments which will restrict or affect a Fund's investments.

Investments in RQFII Eligible Securities made through a RQFII quota are generally subject to compliance with the following investment and market access restrictions:

- i. each RQFII's investment in one listed company should not exceed 10% of the total outstanding shares of that company; and
- ii. the total shares held by all RQFIIs in the RQFII Eligible Securities of one listed company should not exceed 30 per cent. of the total outstanding shares of that company.

However, strategic investments in listed companies listed on the Chinese Stock Exchanges in accordance with the "Measures for the Administration of Strategic Investment of Foreign Investors in Listed Companies" are not subject to the above limits.

Such rules and restrictions imposed by the Chinese government on RQFIIs may have an adverse effect on a Fund's liquidity and performance.

The Investment Adviser may select up to three PRC brokers (each a "PRC Broker") to act on its behalf in each of the Shanghai Stock Exchange and Shenzhen Stock Exchange.

In the event of any default of either the relevant PRC Broker or the PRC Custodian (directly or through its delegate) in the execution or settlement of any transaction or in the transfer of any funds or securities in the PRC, a Fund may encounter delays in recovering their assets which may in turn adversely impact the net asset value of such Fund.

RQFII Regulations

The RQFII Regulations which regulate investments by RQFIIs in China and the repatriation are relatively new and novel in nature. The application and interpretation of the RQFII Regulations are therefore relatively untested and there is uncertainty as to how they will be applied. CSRC and SAFE have been given wide discretions in the RQFII Regulations and there is no precedent or certainty as to how these discretions might be exercised now or in the future. At this stage of early development, the RQFII Regulations may be subject to further revisions in the future, there is no assurance whether such revisions will prejudice the RQFII, or whether the Investment Adviser's RQFII quota, which is subject to review from time to time by CSRC and SAFE, may be removed substantially or entirely. The RQFII Regulations continue to develop and are undergoing continual change. CSRC and/or SAFE may have power in the future to impose new restrictions or conditions on or terminate the RQFII status of the Investment Adviser which may adversely affect a Fund and the Shareholders. It is not possible to predict how such changes would affect a Fund.

RQFII quotas

Investment by a Fund will be made and held through the RQFII quota granted to the Investment Adviser under the RQFII Regulations. The RQFII Regulations apply to RQFII quota(s) which may be obtained by the Investment Adviser as RQFII from time to time for a Fund or other investors as a whole, and not simply to investments made by a Fund. Thus investors should be aware that violations of the RQFII Regulations arising out of activities related to any additional RQFII quota that may be obtained by the Investment Adviser in the future that is not allocated to a Fund could result in the revocation of or other regulatory action in respect of the RQFII quota held by the Investment Adviser as a whole, including that utilised by a Fund through the Investment Adviser's RQFII quota. Likewise, limits on investment in China A-Shares are applied in relation to the RQFII quota held by the Investment Adviser as a whole. Hence the ability of a Fund to make investments and/or repatriate monies from the Investment Adviser's RQFII quota may be affected adversely by the investments, performance and/or repatriation of monies invested by other investors utilising any additional RQFII quota obtained by the Investment Adviser in the future.

There can be no assurance that the Investment Adviser will be able to obtain access to a sufficient RQFII quota to meet all proposed investments to be made by a Fund or that the investments of a Fund can be realised in a timely manner due to possible adverse changes in relevant laws or regulations relating to the Investment Adviser's RQFII quota which will hinder a Fund's ability to pursue the investment objectives or result in loss under extreme circumstances. Should the Investment Adviser lose its RQFII status or retire or be removed, or the Investment Adviser's RQFII quota be revoked or reduced, a Fund may not be able to invest in RQFII Eligible Securities through the Investment Adviser's RQFII quota, and a Fund may be required to dispose of its holdings, which would likely have a material adverse effect on such Fund.

Investment Adviser's RQFII Quota Limitation

The Investment Adviser's RQFII quota is limited. Accordingly a Fund's investments in China through the Investment Adviser's RQFII quota will be limited by the Investment Adviser's RQFII quota amount. It is possible that a Fund may not be able to accept additional subscriptions due to this limitation and would not be able to achieve further economies of scale or otherwise take advantage of the increased capital base.

PRC Custodian and PRC Broker Risk

The RQFII Eligible Securities acquired by a Fund through the Investment Adviser's RQFII quota will be maintained by the PRC Custodian in electronic form via a securities account with the CSDCC and a cash account with the PRC Custodian.

The Investment Adviser also selects the PRC Broker to execute transactions for a Fund in the PRC markets. The Investment Adviser can appoint up to three PRC Brokers per market (the Shanghai Stock Exchange and the Shenzhen Stock Exchange). Should, for any reason, a Fund's ability to use the relevant PRC Broker be affected, this could disrupt the operations of a Fund. A Fund may also incur losses due to the acts or omissions of either the relevant PRC Broker(s) or the PRC Custodian in the execution or settlement of any transaction or in the transfer of any funds or securities. Subject to the applicable laws and regulations in the PRC, the Custodian will make arrangements to ensure that the PRC Custodian has appropriate procedures to properly safe-keep a Fund's assets.

According to the RQFII Regulations and market practice, the securities and cash accounts for a fund in the PRC are to be maintained in the name of "the full name of the RQFII – the name of the Fund".

Moreover, given that pursuant to the RQFII Regulations, the Investment Adviser as RQFII will be the party entitled to the securities (albeit that this entitlement does not constitute an ownership interest), such RQFII Eligible Securities of a Fund may be vulnerable to a claim by a liquidator of the Investment Adviser and may not be as well protected as if they were registered solely in the name of a Fund concerned. In particular, there is a risk that creditors of the Investment Adviser may incorrectly assume that a Fund's assets belong to the Investment Adviser and such creditors may seek to gain control of a Fund's assets to meet the Investment Adviser's liabilities owed to such creditors.

Investors should note that cash deposited in the cash account of a Fund concerned with the PRC Custodian will not be segregated but will be a debt owing from the PRC Custodian to a Fund as a depositor. Such cash will be co-mingled with cash belonging to other clients of the PRC Custodian. In the event of bankruptcy or liquidation of the PRC Custodian, a Fund concerned will not have any proprietary rights to the cash deposited in such cash account, and a Fund will become an unsecured creditor, ranking *pari passu* with all other unsecured creditors, of the PRC Custodian. The Fund concerned may face difficulty and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the Fund will suffer losses.

GENERAL RISK FACTORS CONTINUED

Limits on Redemption

Where a Fund is invested in the securities market in the PRC by investing through the Investment Adviser's RQFII quota, repatriation of funds from the PRC may be subject to the RQFII Regulations in effect from time to time. Currently there is no regulatory prior approval requirement for repatriation of funds from the Investment Adviser's RQFII quota. However, the RQFII Regulations are subject to uncertainty in their application and there is no certainty that no regulatory restrictions will apply to the repatriation of funds by a Fund in the PRC in the future. Accordingly, the investment regulations and/or the approach adopted by SAFE in relation to the repatriation may change from time to time.

For each RQFII quota approved by SAFE, the relevant RQFII is required to utilize the RQFII quota effectively within one year from the SAFE approval date. If the RQFII fails to utilize the RQFII quota effectively, SAFE could reduce or revoke the RQFII quota depending on the circumstances. Utilisation of the Investment Adviser's RQFII quota will depend on the subscription level of the Fund(s) concerned and redemptions by investors might result in the Investment Adviser's RQFII quota being reduced or lost permanently.

Investment Restrictions

Since there are limits on the total shares held by all underlying investors in one listed company under the RQFII Regulations, the capacity of a Fund concerned to make investments in China A-shares will be affected by the activities of all underlying investors, not just the Investment Adviser.

Besides the Investment Adviser's RQFII quota which is used by the Fund(s), the Investment Adviser may obtain additional RQFII quotas in the future which could be utilised by other funds or entities. Violations of the RQFII Regulations by the Investment Adviser or arising out of the activities relating to the use of any RQFII quota granted to the Investment Adviser could result in the revocation of or other regulatory action in respect of any RQFII quota granted to the Investment Adviser, which could directly impact a Fund.

Investing in Emerging Markets and Frontier Markets

In emerging markets and Frontier Markets, in which some of the Funds will invest, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their overseas counterparts. Frontier Markets are differentiated from emerging markets in that Frontier Markets are considered to be somewhat less economically developed than emerging markets. Some markets carry significant risks for investors who should therefore ensure that, before investing, they understand the relevant risks and are satisfied that an investment is suitable.

The following statements are intended to summarise some of the risks in emerging markets and Frontier Markets countries, but are not exhaustive, nor do they offer advice on the suitability of investments.

POLITICAL AND ECONOMIC RISKS

- Economic and/or political instability could lead to legal, fiscal and regulatory changes or the reversal of legal/fiscal/regulatory/market reforms. Assets could be compulsorily acquired without adequate compensation.
- A country's external debt position could lead to the sudden imposition of taxes or exchange controls.
- High inflation can mean that businesses have difficulty obtaining working capital.
- Local management are often inexperienced in operating companies in free market conditions.
- A country may be heavily dependent on its commodity and actual resource exports and therefore be vulnerable to weaknesses in world prices for these products.

LEGAL ENVIRONMENT

- The interpretation and application of decrees and legislative acts can be often contradictory and uncertain particularly in respect of matters relating to taxation.
- Legislation could be imposed retrospectively or may be issued in the form of internal regulations which the public may not be made aware of.
- Judicial independence and political neutrality cannot be guaranteed.
- State bodies and judges may not adhere to the requirements of the law and the relevant contract.
- There is no certainty that investors will be compensated in full or in part for any damage incurred or loss suffered as a result of legislation imposed or decisions of state bodies or judges.

ACCOUNTING PRACTICES

- The accounting and audit systems may not accord with international standards.
- Even when reports have been brought into line with international standards, they may not always contain correct information.
- Obligations of companies to publish financial information may also be limited.

SHAREHOLDER RISK

- Existing legislation may not yet be adequately developed to protect the rights of minority shareholders.
- There is generally no concept of fiduciary duty to shareholders on the part of management.
- There may be limited recourse for violation of such shareholders' rights as pertain.

MARKET AND SETTLEMENT RISKS

- The securities markets of some countries lack the liquidity, efficiency, regulatory and supervisory controls of more developed markets.
- Lack of liquidity may adversely affect the value or ease of disposal of assets.
- The share register may not be properly maintained and the ownership interests may not be, or remain, fully protected.
- Registration of securities may be subject to delay and during the period of delay it may be difficult to prove beneficial ownership of the securities.
- The provision for custody of assets may be less developed than in other more mature markets and thus provides an additional level of risk for the Funds.

PRICE MOVEMENT AND PERFORMANCE

- Factors affecting the value of securities in some markets cannot easily be determined.
- Investment in securities in some markets carries a high degree of risk and the value of such investments may decline or be reduced to zero.

CURRENCY RISK

- Conversion into foreign currency or transfer from some markets of proceeds received from the sale of securities cannot be guaranteed.
- The value of the currency in some markets, in relation to other currencies, may decline such that the value of the investment is adversely affected.
- Exchange rate fluctuations may also occur between the trade date for a transaction and the date on which the currency is acquired to meet settlement obligations.

EXECUTION AND COUNTERPARTY RISK

- In some markets there may be no secure method of delivery against payment which would avoid exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

TAXATION

Investors should note in particular that the proceeds from the sale of securities in some markets or the receipt of any dividends or other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source. Tax law and practice in certain countries into which a Fund invests or may invest in the future (in particular Russia and other emerging markets) is not clearly established. Tax law and practice may equally be subject to change in developed countries, where governments implement fiscal reforms. It is possible therefore that the current interpretation of the law or understanding of practice might change, or that the law might be changed with retrospective effect. It is therefore possible that Aberdeen Global could become subject to additional taxation in such countries that is not anticipated either at the date of the Prospectus or when investments are made, valued or disposed of.

RISKS RELATING TO DEBT

Credit Risk

Credit risk, a fundamental risk relating to all debt or debt related securities as well as money market instruments, is the chance that an issuer will fail to make principal and interest payments when due.

Issuers with higher credit risk typically offer higher yields for this added risk. Conversely, issuers with lower credit risk typically offer lower yields. Generally, government securities are considered to be the safest in terms of credit risk, while corporate debt, especially those with poorer credit ratings, have the highest credit risk. Changes in the financial condition of an issuer, changes in economic and political conditions in general, or changes in economic and political conditions specific to an issuer, are all factors that may have an adverse impact on an issuer's credit quality and security values.

Interest Rate Risk

Funds that invest in debt securities or Money Market Instruments are subject to interest rate risk. The value of a debt or debt related security will generally increase when interest rates fall and decrease in value when interest rates rise. Interest rate risk is the chance that such movements in interest rates will negatively affect the value of a security or, in a Fund's case, its Net Asset Value. Securities with greater interest rate sensitivity and longer maturities tend to produce higher yields, but are subject to greater fluctuations in value. As a result, securities with a longer maturity tend to offer higher yields for this added risk. While changes in interest rates may affect a Fund's interest income, such changes may positively or negatively affect the Net Asset Value of a Fund's Shares on a daily basis.

Pre-Payment Risk

Certain debt or debt related securities, such as mortgage-backed and asset-backed securities, give an issuer the right to call its securities before their maturity date. The possibility of such prepayment risk may force the Fund to reinvest the proceeds of such investments in securities offering lower yields.

Investing in High Yield Bonds

High yield bonds are regarded as being predominately speculative as to the issuer's ability to make payments of principal and interest. Investment in such securities involves substantial risk. Issuers of high yield debt securities may be highly leveraged and may not have available to them more traditional methods of financing. An economic recession may adversely affect an issuer's financial condition and the market value of high yield debt securities issued by such entity. The issuer's ability to service its debt obligations may be adversely affected by specific issuer developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. In the event of bankruptcy of an issuer, Aberdeen Global may experience losses and incur costs.

Downgrading/Upgrading Risk

The value of a bond will fall in the event of the default or reduced credit rating of the issuer, similarly an increase in credit rating can lead to capital appreciation. Generally the higher the rate of interest on any bond, the higher the perceived credit risk of the issuer.

Investment Grade bonds may be subject to the risk of being downgraded to Sub-Investment Grade bonds. Inversely, a Sub-Investment Grade Bond may be upgraded to Investment Grade Status. If an Investment Grade bond is downgraded to Sub-Investment Grade, or if a Sub-Investment Grade Bond is upgraded to Investment Grade, the relevant asset will not be sold unless, in the opinion of the Investment Adviser, it is in the interest of Shareholders to do so.

Bonds which are rated below Investment Grade, have a lower credit rating or are unrated are generally considered to have a higher credit risk and a greater possibility of default than more highly rated bonds. If the issuer defaults, or such bonds or their underlying assets cannot be realised, or performed badly, investor may suffer substantial losses. In addition, the market for bonds which are rated below Investment Grade, have a lower credit rating or are unrated generally has lower liquidity and is less active than that for higher rated bonds and a Fund's ability to liquidate its holdings in response to changes in the economy or the financial markets may be further limited by such factors as adverse publicity and investor perceptions.

Sub-Investment Grade

Some Funds are permitted to invest in Sub-Investment Grade securities. Investment in such securities involves greater price volatility and risk of loss of principal and income than investment in securities of a higher investment grade quality.

Unrated Securities

Some Funds are permitted to invest in unrated securities which involve higher risks and are more sensitive to adverse changes in general economic conditions and in the industries in which the issuers are engaged and to changes in the financial conditions of the issuers of such securities. Investment in unrated securities means that the relevant Fund must rely on the Investment Adviser's credit assessment of such securities and is in particular subject to a high credit risk and a high risk of default.

Sovereign Debt Risk

Certain developed and developing countries are especially large debtors to commercial banks and foreign governments. Investment in debt obligations ("Sovereign Debt") issued or guaranteed by such governments or their agencies and instrumentalities ("governmental entities") involves a higher degree of risk. The governmental entity that controls the repayment of Sovereign Debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of such debt. A governmental entity's willingness or ability to repay principal and interest due in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the governmental entity's policy towards the International Monetary Fund and the political constraints to which a governmental entity may be subject. Governmental entities may also be dependent on expected disbursements from foreign governments, multilateral agencies and others abroad to reduce principal and interest arrearage on their debt.

The commitment on the part of these governments, agencies and others to make such disbursements may be conditioned on a governmental entity's implementation of economic or fiscal reforms and/or economic performance and the timely service of such debtor's obligations. Failure to implement such reforms, achieve such levels of economic performance or repay principal or interest when due may result in the cancellation of such third parties' commitments to lend funds to the governmental entity, which may further impair such debtor's ability or willingness to service its debt on a timely basis. Consequently, governmental entities may default on their Sovereign Debt. Holders of Sovereign Debt, including a Fund, may be requested to participate in the rescheduling of such debt and to extend further loans to governmental entities. There is no bankruptcy proceeding by which Sovereign Debt on which a governmental entity has defaulted may be collected in whole or in part.

In light of the fiscal conditions and concerns on sovereign debt of certain European countries, a Fund with exposure to Europe may be subject to an increased amount of volatility, liquidity, price and currency risk associated with investments in Europe. The performance of the relevant Fund could deteriorate should there be any adverse credit events in the European region (e.g. downgrade of the sovereign credit rating of a European country).

Where a Fund may have investment exposure to Europe in the context of the investment objective and strategy that it is pursuing, in light of the fiscal conditions and concerns on sovereign debt of certain European countries, such Fund may be subject to a number of risks arising from a potential crisis in Europe. The risks are present both in respect of direct investment exposure (for example if the Fund holds a security issued by a sovereign issuer and that issuer suffers a downgrade or defaults) and indirect investment exposure, such as the Fund facing an increased amount of volatility, liquidity, price and currency risk associated with investments in Europe.

In a case when any country should cease using the Euro as their local currency or should a collapse of the Eurozone monetary union occur, such countries may revert back to their former (or another) currency, which may lead to additional performance, legal and operational risks to the Fund and may ultimately negatively impact the value of the Fund. The performance and value of the Fund may potentially be adversely affected by any or all of the above factors, or there may be unintended consequences in addition to the above arising from the potential European crisis that adversely affect the performance and value of the Fund.

Dealing in Shares of Aberdeen Global

MARKET TIMING AND LATE TRADING

Aberdeen Global is intended as a long-term investment vehicle. The Investment Manager applies a number of policies and procedures designed to protect the Funds from being adversely impacted by the trading strategies of investors including application of a dilution adjustment. Further information about the application of any dilution adjustment can be found in the "Dilution Adjustment" section below.

Where the Investment Manager allows a reduced front-end charge on institutional or other similar trades, the trading strategies of the registered holders are closely monitored to ensure that in the event of short-term trading policies becoming apparent, the terms of business are reviewed.

The Investment Manager believes that these policies provide significant protection to the Funds from short term trading.

Late trading is illegal as it violates the provisions of this Prospectus. The Board of Directors will use its reasonable endeavours to ensure that late trading cannot take place. The effectiveness of these procedures is closely monitored.

SUSPENSION OF DEALINGS

The Board of Directors of Aberdeen Global may suspend dealing in the event that a reliable price cannot be established as at the valuation point. Investors are reminded that, in certain circumstances, the issue, redemption and switching of Shares may be suspended (See Appendix C, section 10, "Suspension").

A Fund may without prior notice to Shareholders be closed to new subscriptions or switches into that Fund (but not to redemptions) if, in the opinion of the Board of Directors, this is necessary to protect the interests of the Fund and its existing Shareholders. One such circumstance would be where the Fund has reached a size such that the capacity of the market and/or the capacity of the relevant Investment Adviser has been reached, and where to permit further inflows would be detrimental to the performance of the Fund.

DILUTION ADJUSTMENT

The Board of Directors current policy is normally to impose a dilution adjustment to the Net Asset Value of each Class of Shares in the following circumstances:

- in respect of Shares redeemed on a particular Dealing Day, where the net redemptions of Shares linked to the Fund in which the redemption is instructed exceed 5% of the Net Asset Value or any other threshold determined by the Board of Directors (having considered prevailing market conditions) of the issued Shares linked to that Fund; or
- in respect of Shares purchased on a particular Dealing Day, where the net purchases of Shares linked to the Fund in which the purchase is instructed exceed the same percentage or any other threshold determined by the Board of Directors (having considered prevailing market conditions).

The dilution adjustment may also be charged:

- (a) where a Fund is in continual decline;
- (b) on a Fund experiencing large levels of net sales relative to its size;
- (c) on a Base Currency Exposure Share Class if the effect on the Net Asset Value as a result of such Share Class activities exceeds 5% of the Net Asset Value of the Fund or any other threshold determined by the Board of Directors (having considered prevailing market conditions) of the issued Shares linked to that Fund; or
- (d) in any other case where the Board of Directors is of the opinion that the interests of Shareholders require imposition of a dilution adjustment.

If charged the dilution adjustment will be paid into the relevant Fund and become part of the relevant Fund.

PREVENTION OF MONEY LAUNDERING AND FINANCING OF TERRORISM

Pursuant to international rules and Luxembourg laws and regulations comprising, but not limited to, the law of 12 November 2004 on the fight against money laundering and financing of terrorism, as amended, and circulars and regulations of the Luxembourg supervising authority (CSSF), obligations have been imposed on all professionals of the financial sector to prevent the use of undertakings for collective investment for money laundering and financing of terrorism purposes. As a result of such provisions, the registrar agent of a Luxembourg undertaking for collective investment must in principle ascertain the identity of the subscriber in accordance with Luxembourg laws and regulations. The registrar agent may require subscribers to provide any document it deems necessary to effect such identification.

In case of delay or failure by an applicant to provide the documents required, the application for subscription (or, if applicable, for redemption) will not be accepted. Neither the undertakings for collective investment nor the registrar agent have any liability for delays or failure to process deals as a result of the applicant providing no or only incomplete documentation.

Shareholders may be requested to provide additional or updated identification documents from time to time pursuant to ongoing client due diligence requirements under relevant laws and regulations.

The right is reserved by Aberdeen Global to reject any application for subscription of Shares in whole or in part. If an application is rejected, the application monies or balance thereof will be returned, once sufficient evidence of identification has been produced, at the risk of the applicant and without interest as soon as reasonably practicable, at the cost of the applicant, by bank transfer.

DEALING TIMES

Applications for subscription and instructions for redemptions or switches must be made to the Transfer Agent and delivered to the Transfer Agent's office between 09:00 and 17:00 hours (Luxembourg time) on any Dealing Day for the Fund or Funds concerned.

DEALING IN SHARES OF ABERDEEN GLOBAL CONTINUED

Non-receipt of Cleared Monies: If monies are not received as described above, then Aberdeen Global reserves the right to cancel any allotment of the relevant Shares without prejudice to the right of Aberdeen Global to obtain compensation for any loss directly or indirectly resulting from the failure of an applicant to effect settlement, including in respect of overdraft charges and interest incurred.

If an allotment is cancelled and cleared monies are subsequently received, Aberdeen Global may issue Shares on the date cleared monies are received, at that day's Share Price but subject to any applicable charges.

Methods of Payment: Payment of the total amount due should be made in the currency of denomination of the relevant Fund. Payment for Shares can be made in Australian Dollars, Euro, Hong Kong Dollars, Japanese Yen, Sterling, Swiss Franc or US Dollars. However, if the currency of investment is different to the currency denomination of the relevant Share Class the necessary foreign exchange transaction will be arranged on behalf of, and at the expense of, the applicant. Normal banking charges will be included in the foreign exchange rate given and will be charged to the investor. Applicants must state on their Application Form if they wish to make payment in a currency other than the currency of denomination of the relevant Fund. Certain intermediaries may offer their own foreign exchange services. In these cases, the services will be described in the application forms used by those intermediaries.

Investors are reminded that if they make payment to anyone other than Aberdeen Global, they should satisfy themselves that such persons are authorised to receive such payments. Certain intermediaries may have specific arrangements with Aberdeen Global for the payment of investment monies. In these cases the arrangements will be described in the Application Forms used by those intermediaries. In the absence of such arrangements, no payments should be made to the intermediary. Any queries should be addressed to the Global Distributor, the UK Distributor or the Transfer Agent. The Transfer Agent and Aberdeen Global cannot accept liability for any payments made to unauthorised persons. In the absence of such arrangements no investment monies should be paid to an intermediary.

Payment should be made by bank transfer net of all bank charges (i.e. at the investors' expense) from a bank account in the name(s) of the investor(s). A copy of the bank transfer form (stamped by the bank) should be attached to the Application Form in order to avoid delays. Cash, cheques or traveller's cheques will not be accepted.

All such remittances should be made payable to Aberdeen Global.

Due to the settlement period of four Business Days (except in the case of Aberdeen Global – Flexible Equity Fund and Aberdeen Global – Multi-Strategy Fund which has a settlement period for subscriptions of three Business Days), Shares are not available to be redeemed or switched until the Business Day after the settlement period or the actual settlement date of the subscription or switch, whichever is later.

Shares held in Euroclear or Clearstream: Any transaction in Shares held by an investor in an account with Euroclear or Clearstream must be notified immediately to the Registrar and Transfer Agent. The Transfer Agent has the right to refuse any such transaction where the investor does not hold sufficient Shares in their account with Clearstream or Euroclear.

Investors may redeem either a specific number of Shares or Shares of a specified value on any Dealing Day. Any redemption requests received by the Global Distributor, the UK Distributor or the Transfer Agent before 13:00 hours Luxembourg time on a Dealing Day will be redeemed at the Share Price for the relevant Fund calculated on that Dealing Day, subject to any applicable charges. Any redemption requests received at or after 13:00 hours Luxembourg time will be redeemed on the next Dealing Day for that Fund.

Investors should note that the Dealing Days in respect of the Aberdeen Global – Frontier Markets Equity Fund shall be on the Business Day which falls on the first and third Wednesday of each calendar month other than days during a period of suspension of dealing in Shares in that Fund. The Dealing Days in respect of the Aberdeen Global – Frontier Markets Bond Fund, Aberdeen Global – Flexible Equity Fund and Aberdeen Global – Multi-Strategy Fund shall be on each Business Day which is a Wednesday other than days during a period of suspension of dealing in Shares in these Funds. Any redemption requests in respect of Aberdeen Global – Flexible Equity Fund and Aberdeen Global – Multi-Strategy Fund must be received by the Registrar and Transfer Agent by the dealing cut off time, being 13:00 hours Luxembourg time, at least four Business Days prior to a Dealing Day. The Management Company may waive or agree alternative notice requirements for certain investors at its discretion taking into account equal treatment of Shareholders.

If a redemption request would result in a Shareholder's investment in any one Fund or Class being less than the required minimum holding, Aberdeen Global reserves the right to redeem the full Shareholding in that Fund (or Class) and pay the proceeds to the Shareholder. Shares are cancelled when redeemed.

The price at which Shares are redeemed may be higher or lower than the price at which Shares were purchased, depending on the value of the underlying assets.

Redemption requests may only be withdrawn during a period for which redemption rights have been suspended or deferred by Aberdeen Global.

Redemption requests can be made by letter, fax or such other means as agreed. Redemption requests must state the full name(s) and address of the Shareholders, the name of the Fund, the Class, the number or value of Shares in each Fund to be redeemed and full settlement instructions. Such requests must be signed by all Shareholders. The Global Distributor, the UK Distributor and the Transfer Agent reserve the right to require the Shareholder's signature on a redemption request to be verified in a manner acceptable to the Global Distributor, the UK Distributor or Transfer Agent.

Confirmation of the redemption will be sent to the Shareholder on completion of the transaction.

Due to the settlement period of four Business Days (except in the case of Aberdeen Global – Flexible Equity Fund and Aberdeen Global – Multi-Strategy Fund which has a settlement period for subscriptions of three Business Days), Shares are not available to be redeemed or switched until the Business Day after the settlement period or the actual settlement date of the subscription or switch, whichever is later.

Redemption Proceeds: Payments to Shareholders are normally made to the bank account in the name of the Shareholders in Australian Dollars, Euro, Hong Kong Dollars, Japanese Yen, Sterling, Swiss Francs or US Dollars (as indicated at the time of the original application) or, if no indication was given, in the currency of denomination of the relevant Share Class of the Fund(s) concerned at the expense and risk of the Shareholder. No third party payments can be made. Redemption proceeds, less any applicable charges, which may include normal banking charges included in any foreign exchange rate given, will be paid in accordance with the Shareholder's instructions given on application for the relevant Shares unless otherwise amended or requested in writing.

Proceeds of redemption will normally be paid at Shareholders' expense by bank transfer into the Shareholders' nominated bank account on the fourth Business Day (seventh Business Day in relation to redemptions of Shares in Aberdeen Global – China A Share Equity Fund, Aberdeen Global – Flexible Equity Fund and Aberdeen Global – Multi-Strategy Fund) following the date on which the applicable Share Price was determined. If, in exceptional circumstances, the liquidity of the relevant Fund is insufficient to enable redemption proceeds to be paid within that period, or if there are other reasons, such as exchange controls or other regulations which delay payment, payment will be made as soon as reasonably practicable thereafter, but without interest. Payments by telegraphic transfer will normally be made at the expense of the Shareholder. All payments are made at the Shareholder's risk.

Charges and Expenses

SALES CHARGE STRUCTURE

Class A, Class D, Class E, Class F, Class G, Class L, Class M, Class O, Class P, Class R, Class S, Class U, Class V, Class X And Class Y Shares

Initial Sales Charge

Class A, Class D, Class E, Class L, Class O, Class S and Class U Shares of all Funds are offered at the applicable Net Asset Value per Share plus an initial charge of up to 6.38% of the Net Asset Value which is due to the Global Distributor (this equates to up to 6% of the aggregate Investment Amount). The current initial charges applied are set out in Appendix E. The Global Distributor may rebate all or part of the initial charge by way of a commission or discount to recognised financial intermediaries and/or may waive all or part of the initial charge to individuals or groups of investors. Commission will normally be paid to a maximum of 3%.

An initial sales charge of 6.38% is currently levied by the Board of Directors on all investments in Class F and Class G Shares, although the Board of Directors reserves the right, at its discretion, to direct the Global Distributor to apply or remove a waiver of such initial sales charge from time to time and for a particular period of time and/or for particular individuals or groups of investors. Investors should refer to www.aberdeen-asset.com for up to date information on the actual initial sales charge applicable at any time. The initial sales charge levied in respect of Class F and Class G Shares shall be collected for the benefit of the relevant Fund of Aberdeen Global.

A mandatory initial charge of up to 6.38 % of the Net Asset Value may be levied by the Board of Directors on all investments in Class A, Class D, Class E, Class L, Class M, Class O, Class P, Class R, Class S, Class U, Class V, Class X and Class Y Shares, in addition to (subject to the maximum provided above), or in place of, any initial charge (including part thereof) already levied and paid to the Global Distributor. Investors should refer to www.aberdeen-asset.com for up to date information on the actual initial sales charge applicable at any time. Such initial sales charge shall be collected for the benefit of the relevant Fund of Aberdeen Global and shall not be payable to the Global Distributor or rebated to any persons by way of a commission or discount.

The base currency exposure versions of Class A, Class D, Class S and Class X Shares bear the same initial sales charge as the underlying Class of Share.

Class M, Class P, Class R, Class V, Class X and Class Y Shares and the base currency exposure versions of Class X Shares are only available to investors who are approved by the Global Distributor, including Institutional Investors, recognised financial intermediaries or institutions which provide fee-based investment advisory services to underlying investors.

Class B Shares

Class B Shares are closed to new subscriptions.

Class C Shares

A mandatory initial charge of up to 6.38 % of the Net Asset Value may be levied by the Board of Directors on all investments in Class C Shares and base currency exposure versions thereof. Investors should refer to www.aberdeen-asset.com for up to date information on the actual initial sales charge applicable at any time. Such initial sales charge shall be collected for the benefit of the relevant Fund of Aberdeen Global.

Class C Shares and the base currency exposure versions thereof are only available to investors whose investment is covered by a suitable agreement with the Investment Manager or one of its Associates.

Contingent Deferred Sales Charge

Class C Shares and the base currency exposure versions thereof will be subject to a contingent deferred sales charge of 1.00% of the Share Price of the Shares being redeemed, if the Shareholder redeems his Shares within one year of purchase.

The contingent deferred sales charge will be calculated as a percentage of the lesser of the relevant Share Price of the Shares on the date of redemption or the date of issue, exclusive of reinvestments.

In determining whether a contingent deferred sales charge is applicable to the proceeds of a redemption, the calculation will be made in the manner which results in the lowest possible charge. Thus, it will be assumed that the Class C Shares (or the base currency exposure versions thereof) first being redeemed are those Shares held by the Shareholder which are not subject to a contingent deferred sales charge then, after that, those which have been held by the Shareholder for the longest period of time.

Class H, Class I, Class N and Class Z Shares

Initial Sales Charge

Class H, Class I Shares of all Funds are offered at the applicable Net Asset Value per Share plus an initial charge of up to 6.38% of the Net Asset Value which is due to the Global Distributor (this equates to up to 6% of the aggregate Investment Amount). Commission will normally be paid to a maximum of 3%. The base currency exposure versions of Class I Shares bear the same initial sales charge as the underlying Class of Share.

A mandatory initial charge of up to 6.38 % of the Net Asset Value may be levied by the Board of Directors on all investments in Class H, Class I and Class Z Shares and base currency exposure versions thereof, in addition to (subject to the maximum provided above), or in place of, any initial charge (including part thereof) already levied and paid to the Global Distributor. Investors should refer to www.aberdeen-asset.com for up to date information on the actual initial sales charge applicable at any time. Shares in the Aberdeen Global - Frontier Markets Equity Fund are only available to Investors who enter into an Aberdeen Global - Frontier Markets Equity Fund Share Purchase Agreement with the Investment Manager or one of its Associates.

REDEMPTION CHARGE STRUCTURE

In addition to other charges and adjustments referred to in this Prospectus, the following redemption charges apply in respect of the Aberdeen Global - Frontier Markets Equity Fund. The proceeds of any redemption of Shares in the Aberdeen Global - Frontier Markets Equity Fund by a Shareholder will be reduced in accordance with the following percentage scale. This represents a reducing redemption charge liability for Shareholders in the Aberdeen Global - Frontier Markets Equity Fund and will be calculated in the manner which results in the lowest possible charge on the assumption that the first shares acquired by the Shareholder are the first shares sold by that Shareholder. The scale is as follows:

Year of Redemption	Redemption Charge as a Percentage of Relevant Share Price
	Aberdeen Global - Frontier Markets Equity Fund
Within 6 months of purchase	5.0%
After 6 months but within 1 full year of purchase	5.0%
After 1 full year but within 2 full years of purchase	3.0%
After 2 full years but within 3 full years of purchase	1.0%
After 3 full years of purchase	None

ANNUAL CHARGES STRUCTURE

Investment Manager's Fees

The Investment Manager receives fees for the provision and co-ordination of investment services to Aberdeen Global, which shall not exceed 3% of the Net Asset Value of the Fund. The fees are calculated as a percentage of the Net Asset Value of each Fund as set out in Appendix E.

These fees are accrued daily and are paid monthly in arrears to the Investment Manager. The Investment Manager pays the fees of the Investment Advisers. The Investment Manager reserves the right, at its discretion, to reallocate any Investment Management Fee it receives to certain recognised financial intermediaries or institutions.

Performance Fees

In the case of all Classes of Shares (except Class Z Shares) of Aberdeen Global - Multi-Strategy Fund and Aberdeen Global - Flexible Equity Fund, the Investment Manager is entitled to receive a performance fee (the "Performance Fee").

Entitlement to the Performance Fee will be measured over quarterly performance periods ending on the last Dealing Day of each quarter in the calendar year, and the Performance Fee shall be payable quarterly in arrears. The first or last performance period of the relevant Fund (or Share Class) may be less than a full quarter.

A 10% Performance Fee will be accrued in respect of a Class of Shares on each Dealing Day to the extent that performance, based on the Gross Asset Value per Share (GAV per Share), calculated on a total return basis, exceeds the Hurdle Performance. The Hurdle Performance is the sum of the High Water Mark (HWM) and the increase in the Hurdle since the end of the last performance period in respect of which a Performance Fee was charged or the beginning of the first performance period if no Performance Fee has been charged. In the event that the GAV per Share is less than or equal to this sum at the end of a performance period, no Performance Fee will be charged in respect of that performance period.

As at each Dealing Day, the Performance Fee accrual, if any, will be calculated as:

- Performance Fee = $N \times R \times \text{the Outperformance}$

Where:

- N = number of Shares of the relevant Class as at the end of the immediately preceding Dealing Day (i.e. before taking into account any subscriptions and redemptions on the current Dealing Day).
- R = rate of Performance Fee, which is 10%.
- Outperformance = the amount by which GAV per Share of the relevant Class exceeds the Hurdle Performance, or, if (1) is less than (2) in the definition of Hurdle Performance below, then the amount by which GAV per Share of the relevant Class exceeds the HWM.
- GAV per Share = Gross Asset Value per Share, which equates to the Net Asset Value per Share (NAV per Share) of the relevant Class on the current Dealing Day (i.e. net of all other fees and expenses), but before the deduction of any Performance Fee accrued in respect of the relevant performance period, and calculated on a total return basis, i.e. after adding back any net income distributed prior to the relevant Dealing Day.
- Hurdle Performance = the HWM plus (1) the Hurdle for the relevant Class of Share on the relevant Dealing Day less (2) the Hurdle at the end of the last performance period in respect of which a Performance Fee was charged or the initial Share Price for the relevant Class of Share if no Performance Fee has been charged.

- Hurdle = on a Dealing Day, the initial Share price for the relevant Class of Share increased by the application upon it of an investment return equal to the Hurdle Rate of the respective Fund, on a cumulative basis from the beginning of the first performance period to the relevant Dealing Day.
- Hurdle Rate = the variable rate for each Fund as set out in the table below:

Fund	Hurdle Rate
Aberdeen Global – Multi-Strategy Fund	The overnight index swap rate of the currency of the relevant Share Class + 250bps per annum
Aberdeen Global – Flexible Equity Fund	50% MSCI World (EUR hedged) + 50% EONIA

- HWM = High Water Mark, which means the higher of the initial Share price for the relevant Class of Share and the highest NAV per Share as at the end of any previous performance period in respect of which a performance fee was charged. The NAV per Share is net of all other fees and expenses and after deducting any performance fees relating to the relevant performance period, and for the purposes of the HWM only, calculated on a total return basis, i.e. after adding back any net income distributed prior to the relevant Dealing Day.

At the end of a performance period the accrued Performance Fee (if any) will crystallise and become payable to the Investment Manager and will be paid out within 30 days after the end of the relevant performance period. Under no circumstances will the Investment Manager pay money into the Fund to account for any decrease in value or underperformance. On payment of the Performance Fee, the accrual for the previous performance period will be reset to zero, therefore aligning the GAV per Share and NAV per Share subject only to any accrual built up in the current performance period and the treatment of net income distributed.

If Shares are redeemed or switched or otherwise converted to Shares in another Fund or of another Class on a Dealing Day (if permitted) during a performance period resulting in a reduction in the aggregate number of Shares of the relevant Class in issue when balanced against subscriptions for Shares of the same Class on that Dealing Day ("Net Share Class Reduction"), the Performance Fee accrued in respect of the number of Shares equal to the Net Share Class Reduction shall be crystallised immediately and become payable to the Investment Manager. Notwithstanding any subsequent changes in the GAV per Share or the number of Shares of the relevant Class or otherwise, such Performance Fee will be paid out within 30 days after the end of the relevant performance period and will not be repayable, but will be taken into account in the calculation of the Performance Fee (if any) due in respect of the performance period as a whole.

Investors should note that the Performance Fee will not be calculated on a share-by-share basis and no equalisation or series of shares methodology will apply. As such, the Performance Fee payable may not reflect the individual performance of the Shares in question.

Shares will be subscribed or redeemed during a performance period based on the NAV per Share. The price at which investors subscribe or redeem Shares at different times during a performance period will therefore be affected by the Performance Fee accrual at that time, and this could have a positive or negative effect on the Performance Fee ultimately borne by them depending on performance of the relevant Fund or Share Class during the remainder of the performance period and the price at which other investors have subscribed or redeemed their Shares.

Distributor's Fees

In the case of Class B Shares of all Funds except the Aberdeen Global – Frontier Markets Bond Fund a distributor's fee of 1.00% per annum of the Net Asset Value of the relevant Class is payable by Aberdeen Global to the Global Distributor for providing distribution services (i.e. co-ordinating sales and marketing activities). This fee is accrued daily and paid monthly in arrears.

In the case of Class B Shares of the Aberdeen Global – Frontier Markets Bond Fund, a distributor's fee of 0.75% per annum of the Fund's average Net Asset Value on each Business Day attributable to the Class B Shares of the Fund is payable by Aberdeen Global to the Global Distributor for providing distribution services (i.e. co-ordinating sales and marketing activities). This fee is accrued daily and paid monthly in arrears.

Investors should note that in the case of Class C Shares and the base currency exposure versions thereof, a distributor's fee of 1.00% per annum of the Net Asset Value of the relevant Class is payable by Aberdeen Global to the Global Distributor for providing distribution services (i.e. co-ordinating sales and marketing activities). This fee is accrued daily and paid monthly in arrears.

The Global Distributor reserves the right, at its discretion, to reallocate the distributor's fees, in whole or in part, to certain recognized financial intermediaries or institutions.

OTHER CHARGES

Switching

A charge payable to the Global Distributor of up to 1% of the Net Asset Value of the Shares being switched may be levied.

General

The Global Distributor and the Investment Manager may share the whole or any part of the charges or fees outlined herein with the Transfer Agent or with any sub-distributor or intermediary. The Transfer Agent may act as the collecting or processing agent for such charges or fees.

CHARGES AND EXPENSES CONTINUED

OPERATING, ADMINISTRATIVE AND SERVICING EXPENSES

Ordinary operating expenses incurred by Aberdeen Global will generally be paid out of the assets of the relevant Fund. To seek to protect the Shareholders from fluctuations in these expenses, the yearly total amount of these expenses to be borne by each Share Class (the "Operating, Administrative and Servicing Expenses"), will be fixed at a maximum level of 0.60% of the Net Asset Value in respect of all Share Classes (except in respect of all Share Classes of the Aberdeen Global – Brazil Bond Fund, Aberdeen Global – Brazil Equity Fund, Aberdeen Global – Russian Equity Fund and Aberdeen Global - Eastern European Equity Fund where the corresponding maximum is 0.80%, and except Base Currency Exposure Share Classes in respect of which a fee of up to 0.10% may be charged in addition by the Investment Manager for providing currency exposure services). The level of effective Operating, Administrative and Servicing Expenses below these maximum levels may vary at the Board of Directors' discretion, as agreed with the Management Company, and different rates may apply across the Funds and Share Classes. The Board of Directors may amend the maximum fixed level of the Operating, Administrative and Servicing Expenses applicable to each Share Class at any time at their discretion upon prior notice to relevant Shareholders.

The Operating, Administrative and Servicing Expenses are fixed in the sense that the Management Company, or another Aberdeen Group company as elected by the Management Company, will bear the excess in actual ordinary operating expenses to any such Operating, Administrative and Servicing Expenses charged to the Share Classes. Conversely, the Management Company, or another Aberdeen Group company as elected by the Management Company, will be entitled to retain any amount of Operating, Administrative and Servicing Expenses charged to the Share Classes exceeding the actual ordinary operating expenses incurred by the respective Share Classes, including any cost savings.

The effective Operating, Administrative and Servicing Expenses are accrued at each calculation of the Net Asset Value and are disclosed in the relevant KIID from time to time by comprising (together with the Management Fee and any excluded or extraordinary expenses) the ongoing charges of a Share Class. They are also disclosed in the semi-annual and annual reports of Aberdeen Global.

In addition, in order to pass on economies of scales achieved by those Funds reaching significant levels of assets, the following discounts to the Operating, Administrative and Servicing Expenses will be applied:

In respect of all Share Classes of a Fund reaching a level of assets of at least (USD):	Discount to be applied to the Operating, Administrative and Servicing Expenses (per annum):
Below 2,000,000,000	0.00%
2,000,000,000	0.01%
4,000,000,000	0.02%
6,000,000,000	0.03%
8,000,000,000	0.04%
10,000,000,000	0.05%

Provided the relevant level of asset value is reached by a Fund on the last Business Day of each month, the relevant discount will apply and be paid to that Fund in relation to that month.

The Operating, Administrative and Servicing Expenses for the Funds and Share Classes include the following:

- a. Expenses directly incurred by the Funds, including but not limited to:
 - Custodian fees and expenses
 - Auditor's fees and expenses
 - Directors' Fees and Expenses – Any Director of Aberdeen Global will be entitled to a fee in remuneration for their services as a Director or in their capacity as a member of any committee of the Board of Directors. In addition, all Directors may be paid reasonable travelling, hotel and other incidental expenses for attending meetings of the Board of Directors (or any committee thereof) or of Shareholders of Aberdeen Global.
 - Luxembourg annual subscription tax (*taxe d'abonnement*) - referred to in the "Taxation" section of this Prospectus.
 - Hedging costs and fees (including any fees charged by the Investment Manager).
- b. A "fund servicing fee" paid to the Management Company for administrative and related additional management services which will constitute the remaining amount of the Operating, Administrative and Servicing Expenses after deduction of the expenses detailed under section a. above. The Management Company then bears all expenses incurred in the day to day operation and administration of the Funds, including all third party expenses and other recoverable costs incurred by or on behalf of the Funds from time to time, including but not limited to:
 - Domiciliary Agent, Registrar & Transfer Agent and Listing Agent's Fees and Expenses
 - Principal and Local Paying Agent's Fees and Expenses
 - Fund Administrator's Fees and Expenses
 - Management Company Fee
 - Legal fees and expenses
 - Miscellaneous fees – including but not limited to: the cost of publication of the Share prices, rating fees, postage, telephone, facsimile transmission and other electronic means of communication, registration costs and expenses of preparing, printing and distributing the Prospectus, translation costs, Key Investor Information Documents or any offering document, financial reports and other documents made available to Shareholders, fees payable to permanent representatives and other agents of Aberdeen Global, Investor Servicing teams fees and expenses.

The Management Company may instruct Aberdeen Global to pay any and all of the expenses listed in b. above and in such cases the Operating, Administrative and Servicing Expenses charged to the relevant Funds and Share Classes would be reduced accordingly.

The Operating, Administrative and Servicing Expenses do not include any cost or expense incurred by a Share Class in respect of the following costs, which will be borne and paid out of the assets of the Fund in addition to the Operating, Administrative and Servicing Expenses:

- Dilution levy, brokerage charges and non-custody related transactions.
- Correspondent and other banking charges.
- The full amount of any current and future tax, levy, duty or similar charge which may be due on the assets and/or on the income of Aberdeen Global, the Funds or their assets, excluding the Luxembourg annual subscription tax (*taxe d'abonnement*) included in section a. above.
- Additional fee of up to 0.10% for Base Currency Exposure Share Classes.
- Extraordinary expenses including but not limited to expenses that would not be considered as ordinary expenses: litigation expenses, exceptional measures, particularly legal, business or tax expert appraisals or legal proceedings undertaken to protect shareholders' interests, any expense linked to non-routine arrangements made by the Domiciliary Agent, the Registrar & Transfer Agent and the Listing Agent in the interests of the investors and all similar charges and expenses.
- In the case of a Fund investing in another UCITS or UCI: any double charging of fees and expenses, in particular the duplication of the fees payable to the custodian(s), transfer agent(s), investment manager(s) and other agents and also subscription and redemption charges, which are generated both at the level of the Fund and of the target funds in which the Fund invests.

For the avoidance of doubt, all charges and expenses are stated exclusive of Value-added tax (VAT), Goods and Services Tax (GST) or similar taxes that might apply in any jurisdiction.

Aberdeen Global is a single legal entity. Pursuant to Article 181 of the Law, the rights of investors and of creditors concerning a Fund or which have arisen in connection with the creation, operation or liquidation of a Fund are limited to the assets of that Fund.

The assets of a Fund are exclusively available to satisfy the rights of investors in relation to that Fund and the rights of creditors whose claims have arisen in connection with the creation, the operation or the liquidation of that Fund.

For the purpose of the relations as between investors, each Fund will be deemed to be a separate entity.

UK REPORTING FUND REGIME

All Class D, Class G, Class I, Class R and Class Z Shares (and the base currency exposure versions thereof) have been granted, or are in the process of being granted, reporting fund status by the UK taxation authorities. The Board of Directors, at its discretion, may apply for reporting fund status in respect of other Share Classes. Once granted reporting fund status, the Share Class may rely on that status going forward subject to continued compliance with the requirements of the reporting funds rules. Details of reporting fund status having been granted will be highlighted in the Aberdeen Global Interim Report and Accounts and the Annual Report and Accounts, within the section "Notes to the Financial Statements, Share Class Information". Additionally, the UK Reporting Fund Regime Report in respect of all Share Classes granted reporting fund status will be published on www.aberdeen-asset.co.uk/globalUKAnnualReportableIncome within six months of the relevant accounting period, and can be requested in writing by contacting Aberdeen Global Services S.A. at the Shareholder Services centre as detailed in the "Management and Administration" section of this Prospectus.

Calculation of Net Investment Income

The net investment income in relation to a Fund is determined in accordance with the laws and regulations applicable to Aberdeen Global. Broadly, it comprises all sums deemed by the Board of Directors of Aberdeen Global, to be in the nature of income received or receivable for the account of Aberdeen Global and attributable to each Fund in respect of the accounting period concerned, after deducting net charges and expenses of the individual Classes and payable out of such income and after making such adjustments as the Administrator considers appropriate, following consultation with the Auditors in accordance with the laws and regulations applicable to Aberdeen Global in relation to taxation and other matters.

Each allocation of net investment income made in respect of any Fund at a time when more than one Class of Shares is in issue in respect of that Fund shall be effected by reference to the relevant investor's proportionate interest in the property of the Fund in question. This will be ascertained for each Share Class as follows:

1. A notional account will be maintained for each Class of Share. Each account will be referred to as an Entitlement Account.
2. There will be credited to this Entitlement Account:
 - the capital amount of the price paid for the Shares of that Class (i.e., excluding any initial charges or dilution adjustment);
 - that Class' proportion of the capital appreciation attributable to the Fund;
 - that Class' proportion of the Fund's income received and receivable;
 - in the case of accumulation Shares, income previously allocated and so accumulated to Shares in respect of previous accounting periods.

3. There will be debited to the Entitlement Account:
 - any redemption payment made for the cancellation of Shares of the relevant Class;
 - that Class' proportion of any capital depreciation attributable to the Fund;
 - all distributions of income (including equalisation) made to Shareholders of that Class;
 - all costs, charges and expenses incurred by and allocated to that Class.
4. In each case, the Administrator will make such adjustments for taxation matters as the Administrator considers appropriate after consultation with the Auditors such that no particular Class of Share suffers material prejudice as opposed to another Class of Share.
5. Where a Class of Shares is denominated in a currency which is not the Base Currency of the relevant Fund, the balance on the Entitlement Account shall be converted into the Base Currency of the Fund in order to ascertain the proportion of all Classes of Share. Conversions between currencies shall be at a rate of exchange decided by the administrator as being a rate that is not likely to result in any material prejudice to the interests of investors or potential investors.

Please see the section "Operating, Administrative and Servicing Expenses" within "Charges and Expense" for further details on the charging of these expenses to the Funds and Share Classes.

Payment of Dividends

DIVIDENDS FOR REINVESTMENT

Dividends in respect of the A-1, B-1, C-1, D-1, E-1, F-1, G-1, H-1, I-1, L-1, M-1, N-1, O-1, P-1, R-1, S-1, U-1, V-1, X-1, Y-1 and Z-1 Classes of Shares and the base currency exposure versions of Class A-1, C-1, F-1, G-1, I-1, N-1, S-1, X-1 and Z-1 Shares will automatically be reinvested in additional Shares of the same Class (except for Class B Shares) in the relevant Fund unless the Shareholder has specifically elected on the Application Form or otherwise subsequently in writing to receive such dividends in cash. The new Shares are issued fourteen days prior to the relevant dividend payment date at the Share Price on that date and are free of any sales charge. Where such day is not a Dealing Day, the new Shares will be issued on another day at Aberdeen Global's discretion. Dividends declared in respect of Class B Shares will be received in cash. Reinvested dividends are likely to be treated as income received by the Shareholder for tax purposes in most jurisdictions.

DIVIDENDS FOR PAYMENT BY BANK TRANSFER

Dividends are declared in the currency in which the relevant Share Class is denominated. They can, upon request, be paid, at the expense and risk of the Shareholder, in the preferred currency of the Shareholder, provided that currency is on the list of currencies offered, which list is available at the registered office of Aberdeen Global, (usually the currency of original investment), by bank transfer. Shareholders should bear in mind that bank clearing or collection charges may seriously erode the value of small dividend amounts. Dividend amounts of less than US\$25 (or its equivalent in another currency) will, at the discretion of the Board of Directors of Aberdeen Global, not be paid out in cash but will be automatically reinvested in order to avoid disproportionate costs, notwithstanding a Shareholders request to pay out dividends.

UNCLAIMED DIVIDENDS

Any dividend unclaimed after 5 years from the date when it first became payable shall be forfeited automatically and made use of for the benefit of the relevant Fund without the necessity for any declaration or other action by the Fund.

Taxation

TAXATION OF ABERDEEN GLOBAL

Aberdeen Global is not liable to any Luxembourg tax on profits or income.

Aberdeen Global is liable in Luxembourg to an annual subscription tax (*taxe d'abonnement*) at a rate of 0.05% per annum (0.01% for Class G Shares, Class H, Class I Shares, Class N Shares and Class Z Shares, being Shares that can only be held by Institutional Investors) of the Net Asset Value of each Class, such tax being payable quarterly on the basis of the value of the net assets of Aberdeen Global at the end of the relevant calendar quarter.

No stamp duty or other tax is payable in Luxembourg on the issue or redemption of Shares except for a capital duty of 1,239.47 Euro paid by Aberdeen Global on its incorporation.

No Luxembourg tax is payable on the realised capital gains or unrealised capital appreciation of the assets of Aberdeen Global.

Dividends and interest received by Aberdeen Global on its investments may be subject to irrecoverable withholding taxes at source.

TAXATION OF SHAREHOLDERS

EU Tax Considerations for individuals resident in the EU or in certain third countries or dependent or associated territories

Under the European Savings Tax Directive (the "EUSD"), Member States of the EU will be required to provide the tax authorities of another EU Member State with information on payments of interest or other similar income paid by a paying agent (as defined by the EUSD) within its jurisdiction to an individual resident in that other EU Member State. Austria, Belgium and Luxembourg have opted instead for a tax withholding system for a transitional period in relation to such payments. Switzerland, Monaco, Liechtenstein, Andorra, San Marino, the Channel Islands, the Isle of Man and the dependent or associated territories in the Caribbean have also introduced measures equivalent to information reporting or, during the above transitional period, withholding tax.

The EUSD has been implemented in Luxembourg by a law dated 21 June 2005 (the "2005 Law").

Dividends distributed by a Fund will be subject to the Directive and the 2005 Law if more than 15% of such Fund's assets are invested in debt claims (as defined in the 2005 Law) and proceeds realised by Shareholders on the redemption or sale of Shares in a Fund will be subject to the EUSD and the 2005 Law if more than 25% of such Fund's assets are invested in debt claims (such Funds, hereafter "Affected Funds").

The applicable withholding tax is at a rate of 35%.

Consequently, if in relation to an Affected Fund a Luxembourg paying agent makes a payment of dividends or redemption proceeds directly to a Shareholder who is an individual resident or deemed resident for tax purposes in another EU Member State or certain of the above mentioned dependent or associated territories, such payment will, subject to the next paragraph below, be subject to withholding tax at the rate indicated above.

No withholding tax will be withheld by the Luxembourg paying agent if the relevant individual either (i) has expressly authorised the paying agent to report information to the tax authorities in accordance with the provisions of the 2005 Law or (ii) has provided the paying agent with a certificate drawn up in the format required by the 2005 Law by the competent authorities of his State of residence for tax purposes.

Aberdeen Global reserves the right to reject any application for Shares if the information provided by any prospective investor does not meet the standards required by the 2005 Law as a result of the Directive.

The foregoing is only a summary of the implications of the Directive and the 2005 Law, is based on the current interpretation thereof and does not purport to be complete in all respects. It does not constitute investment or tax advice and investors should therefore seek advice from their financial or tax adviser on the full implications for themselves of the Directive and the 2005 Law.

The European Commission has adopted a proposal to amend the EUSD. These changes broadly relate to the scope of, and mechanisms implanted by, the EUSD. If these changes are implemented, the position of Shareholders in relation to the EUSD could be different to that set out above.

Luxembourg

Subject to the provisions of the 2005 Law, Shareholders are not subject to any capital gains, income, withholding, gift, estate, inheritance or other tax in Luxembourg (except for Shareholders domiciled, resident or having a permanent establishment in Luxembourg).

General

Prospective investors should note that levels and bases of taxation may change and should ascertain from their professional advisers the potential consequences to them of acquiring, holding, redeeming, transferring, selling or switching any of Aberdeen Global's Shares or receiving dividends therefrom under the relevant laws of each jurisdiction to which they are subject, including the tax consequences and any foreign exchange control requirements. These consequences will vary with the law and practice of a Shareholder's country of citizenship, residence, domicile or incorporation and personal circumstances.

The foregoing statements on taxation are given on the basis of Aberdeen Global's understanding of present legislation and practice in force at the date of this document and is subject to change.

TAXATION OF CHINESE EQUITY AND BONDS

The Management Company reserves the right to provide for capital gains tax on Funds investing in Mainland Chinese assets. The tax rules applied by the People's Republic of China ("PRC") taxation authorities in this area are unclear. As the provision made by Aberdeen Global is based on current market practice and Aberdeen Global's understanding of the tax rules, any changes to market practice or interpretation of PRC tax rules may impact this provision and may result in this provision being higher or lower than required. Consequently, investors may be advantaged or disadvantaged depending upon the final outcome of how the capital gains will be taxed, the level of provision and when they subscribed for and/or redeemed their Shares in/from the relevant Fund.

Aberdeen Global currently intends to make provision at a rate of 10% on both realized and unrealized gains from disposing or holding Mainland Chinese equities and bonds.

COMPLIANCE WITH U.S. REPORTING AND WITHHOLDING REQUIREMENTS

The Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act ("FATCA") generally impose a U.S. federal reporting and withholding tax regime with respect to certain U.S. source income (including, among other types of income, dividends and interest) and gross proceeds from the sale or other disposal of property. The rules are designed to require certain U.S. persons' direct and indirect ownership of certain non-U.S. accounts and non-U.S. entities to be reported to the U.S. Internal Revenue Service. The 30% withholding tax regime could apply if there is a failure to provide certain required information.

On 28 March 2014, the Grand-Duchy of Luxembourg entered into a Model 1 Intergovernmental Agreement ("IGA") with the United States of America and a memorandum of understanding in respect thereof. Aberdeen Global would hence have to comply with such Luxembourg IGA, once the IGA has been implemented into Luxembourg law in order to comply with the provisions of FATCA rather than directly complying with the US Treasury Regulations implementing FATCA. Under the IGA, Aberdeen Global may be required to collect information aiming to identify its direct and indirect Shareholders that are Specified US Persons for FATCA purposes ("reportable accounts"). Any such information on reportable accounts provided to Aberdeen Global will be shared with the Luxembourg tax authorities which will exchange that information on an automatic basis with the Government of the United States of America pursuant to Article 28 of the convention between the Government of the United States of America and the Government of the Grand-Duchy of Luxembourg for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes in Income and Capital, entered into in Luxembourg on 3 April 1996. Aberdeen Global intends to comply with the provisions of the Luxembourg IGA to be deemed compliant with FATCA and will thus not be subject to the 30% withholding tax with respect to its share of any such payments attributable to actual and deemed U.S. investments of Aberdeen Global. Aberdeen Global will continually assess the extent of the requirements that FATCA and notably the Luxembourg IGA places upon it. As from the date of signature of the Luxembourg IGA and until the Grand Duchy of Luxembourg has implemented the national procedure necessary for the entry into force of the IGA, the United States Department of the Treasury will treat Aberdeen Global as complying with and not subject to the FATCA Withholding.

To ensure Aberdeen Global's compliance with FATCA and the Luxembourg IGA in accordance with the foregoing, Aberdeen Global or the Management Company, in its capacity as the Aberdeen Global's management company or the Administrator, may:

- a) request information or documentation, including self-certification forms, a Global Intermediary Identification Number, if applicable, or any other valid evidence of a shareholder's FATCA registration with the IRS or a corresponding exemption, in order to ascertain such shareholder's FATCA status;
- b) report information concerning a shareholder and his account holding in Aberdeen Global to the Luxembourg tax authorities if such account is deemed a US reportable account under the Luxembourg IGA; and
- c) deduct applicable US withholding taxes from certain payments made to a Shareholder by or on behalf of Aberdeen Global in accordance with FATCA and the Luxembourg IGA.

Any withholding obligation would be carried out in accordance with applicable laws and regulations and the Management Company will act in good faith and on reasonable grounds in relation thereto. Although Aberdeen Global will attempt to satisfy any obligations imposed on it to avoid the imposition of FATCA withholding tax, no assurance can be given that Aberdeen Global will be able to satisfy these obligations. If Aberdeen Global becomes subject to a withholding tax as a result of the FATCA regime, the value of the Shares held by the Shareholders may suffer material losses.

In addition, Aberdeen Global may invest a maximum of 10% of the net assets of any Fund in Transferable Securities and Money Market Instruments other than those referred to under paragraphs a) through f) above.

II. Aberdeen Global may hold ancillary liquid assets.

- III. a) (i) Aberdeen Global will invest no more than 10% of the Net Assets of any Fund in Transferable Securities or Money Market Instruments issued by the same issuing body.
- (ii) Aberdeen Global may not invest more than 20% of the Net Assets of any Fund in deposits made with the same body. The risk exposure of a Fund to a counterparty in an OTC derivative transaction may not exceed 10% of its Net Assets when the counterparty is a credit institution referred to in paragraph I. d) above or 5% of its Net Assets in other cases.

- b) Moreover, where Aberdeen Global holds on behalf of a Fund investments in Transferable Securities and Money Market Instruments of issuing bodies which individually exceed 5% of the Net Assets of such Fund, the total of all such investments must not account for more than 40% of the total Net Assets of such Fund.

This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the individual limits laid down in paragraph a), Aberdeen Global may not combine for each Fund:

- investments in Transferable Securities or Money Market Instruments issued by a single body;
- deposits made with the same body and/or;
- exposure arising from OTC derivative transactions undertaken with the same body

in excess of 20% of its net assets.

- c) The limit of 10% laid down in sub-paragraph a) (i) above is increased to a maximum of 35% in respect of Transferable Securities or Money Market Instruments which are issued or guaranteed by a Member State, its local authorities, or by another Eligible State or by public international bodies of which one or more Member States are members.
- d) The limit of 10% laid down in sub-paragraph a) (i) is increased to 25% for certain bonds when they are issued by a credit institution which has its registered office in a Member State and is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the repayment of principal and payment of the accrued interest.

If a Fund invests more than 5% of its net assets in the bonds referred to in this sub-paragraph and issued by one issuer, the total value of such investments may not exceed 80% of the net assets of the Fund.

- e) The Transferable Securities and Money Market Instruments referred to in paragraphs c) and d) shall not be included in the calculation of the limit of 40% in paragraph b).

The limits set out in paragraphs a), b), c) and d) may not be aggregated and, accordingly, investments in Transferable Securities or Money Market Instruments issued by the same issuing body, in deposits or in financial derivative instruments effected with the same issuing body may not, in any event, exceed a total of 35% of any Fund's net assets;

Companies which are part of the same group for the purposes of the establishment of consolidated accounts, as defined in accordance with directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this paragraph III).

Aberdeen Global may cumulatively invest up to 20% of the net assets of a Fund in Transferable Securities and Money Market Instruments within the same group.

- f) **Notwithstanding the above provisions, Aberdeen Global is authorised to invest up to 100% of the net assets of any Fund, in accordance with the principle of risk spreading, in Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, by its local authorities or agencies, by a State accepted by the Luxembourg supervisory authority (being at the date of this Prospectus OECD member states, Singapore and any member state of the G20) or by public international bodies of which one or more member states of the European Union are members, provided that such Fund must hold securities from at least six different issues and securities from one issue do not account for more than 30% of the net assets of such Fund.**

- IV. a) Without prejudice to the limits laid down in paragraph V., the limits provided in paragraph III. are raised to a maximum of 20% for investments in shares and/or bonds issued by the same issuing body if the aim of the investment policy of a Fund is to replicate the composition of a certain stock or bond index which is sufficiently diversified, represents an adequate benchmark for the market to which it refers, is published in an appropriate manner and disclosed in the relevant Fund's investment policy.
- b) The limit laid down in paragraph a) is raised to 35% where this proves to be justified by exceptional market conditions, in particular on Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.
- V. a) Aberdeen Global may not acquire shares carrying voting rights which should enable it to exercise significant influence over the management of an issuing body.
- b) Aberdeen Global may acquire no more than:
- 10% of the non-voting shares of the same issuer;
 - 10% of the debt securities of the same issuer;
 - 10% of the Money Market Instruments of the same issuer.
- c) These limits under second and third indents may be disregarded at the time of acquisition, if at that time the gross amount of debt securities or of the Money Market Instruments or the net amount of the instruments in issue cannot be calculated.

The provisions of paragraph V. shall not be applicable to Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or its local authorities or by any other Eligible State, or issued by public international bodies of which one or more Member States are members.

These provisions are also waived as regards shares held by Aberdeen Global in the capital of a company incorporated in a non-Member State which invests its assets mainly in the securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which Aberdeen Global can invest in the securities of issuing bodies of that State provided that the investment policy of the company from the non-Member State of the EU complies with the limits laid down in paragraphs III., V. and VI. a), b), c) and d).

- VI. a) Aberdeen Global may acquire units of UCITS and/or Other UCIs referred to in paragraph I. c), provided that no more than 10% of a Fund's Net Assets be invested in the units of UCITS or Other UCIs or in one single such UCITS or Other UCI, unless otherwise provided in relation to a given Fund.

In case a Fund may invest more than 10% in UCITS or Other UCIs, such Fund may not invest more than 20% of its Net Assets in units of a single UCITS or Other UCI. For the purpose of the application of this investment limit, each compartment of a UCITS or Other UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments *vis-à-vis* third parties is ensured.

- b) Investments made in units of Other UCIs may not, in aggregate, exceed 30% of the Net Assets of such Fund.
- c) The underlying investments held by the UCITS or Other UCIs in which Aberdeen Global invests do not have to be considered for the purpose of the investment restrictions set forth under III. above.
- d) When Aberdeen Global invests in the units of UCITS and/or Other UCIs that are managed directly or by delegation by the Management Company or by any other company with which the Management Company is linked by common management or control, or by a substantial direct or indirect holding of more than 10% of the capital or votes, the Management Company or other company cannot charge subscription or redemption fees to Aberdeen Global on account of its investment in the units of such UCITS and/or Other UCIs.

In respect of a Fund's investments in UCITS and Other UCIs that are managed directly or by delegation by the Management Company or by any other company with which the Management Company is linked by common management or control, or by a direct or indirect holding of more than 10% of the capital or votes, a management fee at the level of the relevant Fund and the UCITS and Other UCIs (excluding any performance fee, if any) of no more than 5% of the net asset value of the relevant Fund may be charged.

Aberdeen Global will indicate in its annual report the total management fees charged both to the relevant Fund and to the UCITS and Other UCIs in which such Fund has invested during the relevant period.

- e) Aberdeen Global may acquire no more than 25% of the units of the same UCITS or Other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units in issue cannot be calculated. In case of a UCITS or Other UCI with multiple compartments, this restriction is applicable by reference to all units issued by the UCITS or Other UCI concerned, all compartments combined.
- VII. a) Under the conditions and within the limits laid down by the Law, Aberdeen Global may, to the widest extent permitted by the Luxembourg laws and regulations (i) create any Fund qualifying either as a feeder UCITS (a "Feeder UCITS") or as a master UCITS (a "Master UCITS"), (ii) convert any existing Fund into a Feeder UCITS, or (iii) change the Master UCITS of any of its Feeder UCITS.
- b) A Feeder UCITS shall invest at least 85% of its assets in the units of another Master UCITS.
- A Feeder UCITS may hold up to 15% of its assets in one or more of the following:
- ancillary liquid assets in accordance with paragraph II.;
 - financial derivative instruments, which may be used only for hedging purposes.
- c) For the purposes of compliance with paragraph IX., the Feeder UCITS shall calculate its global exposure related to financial derivative instruments by combining its own direct exposure under the second indent of b) with either:
- the Master UCITS actual exposure to financial derivative instruments in proportion to the Feeder UCITS investment into the Master UCITS; or
 - the Master UCITS potential maximum global exposure to financial derivative instruments provided for in the Master UCITS management regulations or instruments of incorporation in proportion to the Feeder UCITS investment into the Master UCITS.
- d) As of the date of this Prospectus, none of the Funds qualify as a Feeder UCITS.

VIII. A Fund (the "Investing Fund") may subscribe, acquire and/or hold securities to be issued or issued by one or more Funds (each a "Target Fund") under the condition that:

- the Target Fund does not, in turn, invest in the Investing Fund invested in this Target Fund; and
- no more than 10% of the assets of the Target Fund whose acquisition is contemplated, may, according to its investment policy, be invested in units of other UCITS or Other UCIs; and

- voting rights, if any, attaching to the relevant securities are suspended for as long as they are held by the Investing Fund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- the Investing Fund may not invest more than 20% of its net assets in shares/units of a single Target Fund; and
- for as long as these securities are held by the Investing Fund, their value will not be taken into consideration for the calculation of the net assets of Aberdeen Global for the purposes of verifying the minimum threshold of the net assets imposed by the Law; and
- there is no duplication of management/subscription or repurchase fees between those at the level of the Investing Fund having invested in the Target Fund, and this Target Fund.

IX. Aberdeen Global shall ensure for each Fund that the global exposure relating to financial derivative instruments does not exceed the net assets of the relevant Fund.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.

If Aberdeen Global invests in financial derivative instruments, the exposure to the underlying assets may not exceed in aggregate the investment limits laid down in paragraph III above. When Aberdeen Global invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in paragraph III.

When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this paragraph IX.

- X. a) Aberdeen Global may not borrow for the account of any Fund amounts in excess of 10% of the net assets of that Fund, any such borrowings to be from banks and to be effected only on a temporary basis, provided that Aberdeen Global may acquire foreign currencies by means of back to back loans;
- b) Aberdeen Global may not grant loans to or act as guarantor on behalf of third parties.

This restriction shall not prevent Aberdeen Global from (i) acquiring Transferable Securities, Money Market Instruments or other financial derivative instruments referred to in paragraphs I. c), e) and f) which are not fully paid, and (ii) performing permitted securities lending activities, that shall not be deemed to constitute the making of a loan.
- c) Aberdeen Global may not carry out uncovered sales of Transferable Securities, Money Market Instruments or other financial derivative instruments.
- d) Aberdeen Global may not acquire movable or immovable property.
- e) Aberdeen Global may not acquire either precious metals or certificates representing them.

- XI. a) Aberdeen Global needs not comply with the limits laid down in this Appendix when exercising subscription rights attaching to Transferable Securities or Money Market Instruments which form part of its assets. While ensuring observance of the principle of risk spreading, recently created Funds may derogate from paragraphs III., IV. and VI. a), b) and c) for a period of six months following the date of their creation.
- b) If the limits referred to in paragraph a) are exceeded for reasons beyond the control of Aberdeen Global or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interest of its Shareholders.
- c) To the extent that an issuer is a legal entity with multiple compartments where the assets of the compartment are exclusively reserved to the investors in such compartment and to those creditors whose claim has arisen in connection with the creation, operation or liquidation of that compartment, each compartment is to be considered as a separate issuer for the purpose of the application of the risk spreading rules set out in paragraphs III., IV. and VI.

Aberdeen Global will in addition comply with such further restrictions as may be required by the regulatory authorities in any country in which the Shares are marketed.

INVESTMENT TECHNIQUES AND INSTRUMENTS AND USE OF FINANCIAL DERIVATIVE INSTRUMENTS

Techniques and Instruments

To the maximum extent allowed by, and within the limits set forth in, the Law and any present or future related Luxembourg laws or implementing regulations, circulars and CSSF's positions, in particular the provisions of (i) article 11 of the Grand-Ducal regulation of 8 February 2008 relating to certain definitions of the law of 20 December 2002 on undertakings for collective investments¹; (ii) CSSF Circular 08/356 relating to the rules applicable to undertakings for collective investments when they use certain techniques and instruments relating to transferable securities and money market instruments ("CSSF Circular 08/356" (as these regulations may be amended or replaced from time to time)); and (iii) CSSF Circular 13/559 relating to ESMA Guidelines on ETFs and other UCITS, each Fund of Aberdeen Global may for the purpose of generating additional capital or income or for reducing costs or risks (a) enter, either as purchaser or seller, into optional as well as non optional repurchase and reverse repurchase transactions and (b) engage in securities lending transactions.

(a) Repurchase Transactions and Reverse Repurchase Transactions

In order to generate additional revenue for Funds, Aberdeen Global may participate in Repurchase and Reverse Repurchase Transactions subject to complying with the provisions set forth, inter alia, in CSSF Circular 08/356 and CSSF Circular 13/559 as the same may be amended or replaced. Under no circumstances shall these operations cause a Fund to diverge from its investment objective as laid down in the Prospectus or result in additional risk higher than its profile as described in the Prospectus.

Repurchase Transactions, also known as "repos", are financial instruments used in securities and money markets. A buyer of a Repurchase Transactions agrees to provide cash to a counterparty who sells securities and agrees to repurchase those securities from the buyer at a future date. The repurchase price should be greater than the original sale price, the difference effectively representing interest, sometimes called the repo rate. The securities sold by the counterparty are often referred to as "collateral". Repurchase Transactions are typically instruments of a short-term nature.

¹ The law of 20 December 2002 on undertakings for collective investments has been repealed and replaced by the Law.

Each Fund may invest in securities subject to Repurchase Transactions concluded with high quality financial institutions specialised in this type of transactions. Under such agreements, the seller agrees with the buyer, upon entering into the contract, to repurchase the securities at a mutually agreed upon time and price, thereby determining the repo rate during the time of the agreement. This investment technique permits the buyer to earn a fixed rate of return independent from market fluctuations during such period. During the lifetime of a Repurchase Transaction, the buyer may not sell the securities which are the subject of the agreement either before the repurchase of the securities by the counterparty has been carried out or before the repurchase period has expired.

Aberdeen Global will ensure to maintain the importance of purchased securities subject to a repurchase obligation at a level such that it is able, at all times to meet redemption requests from its Shareholders.

In relation to Repurchase Transactions and Reverse Repurchase Transactions, a service fee may be payable to a third party for agency services in the context of tri-party arrangements. Any revenue received by a Fund arising from Repurchase Transactions and Reverse Repurchase Transactions as reduced by the service fee (if applicable) will be for the benefit of that Fund and be specified in Aberdeen Global's interim and annual reports.

Aberdeen Global may act either as a seller (in a Repo) or as a buyer (a Reverse Repo).

(b) Lending of Portfolio Securities

In order to generate additional revenue, inter alia, for Funds, Aberdeen Global may participate in securities lending transactions subject to complying with the provisions set forth in the CSSF Circular 08/356 and CSSF Circular 13/559 as the same may be amended or replaced. Under no circumstances shall these operations cause a Fund to diverge from its investment objective as laid down in the Prospectus or result in additional risk higher than its profile as described in the Prospectus.

In relation to such lending transactions, Aberdeen Global must in principle receive for the Fund concerned security of a value which at the time of the conclusion of the lending agreement must be at least equal to the value of the global valuation of the securities lent.

Aberdeen Global may not enter into securities lending transactions unless such lending is fully and continuously secured by the pledge of cash and/or securities issued or guaranteed by an OECD Member State or by local authorities of an OECD Member State or by supranational institutions or organisations with EU, regional or worldwide scope, or by a guarantee of a highly rated financial institution, and blocked in favour of Aberdeen Global until the termination of the lending contract.

Lending transactions may not be entered into in respect of more than 50% of the total valuation of the portfolio of each Fund. Such limitation shall not apply where Aberdeen Global has the right at any time to terminate the lending contract and obtain restitution of the securities lent (except where a Fund of Aberdeen Global is authorised by the Financial Services Board of South Africa).

Lending transactions may not extend beyond a period of 30 days, except for lending transactions where the securities may be reclaimed at any time by Aberdeen Global.

Aberdeen Global will seek to appoint counterparties from a list of approved borrowers who have undergone a credit risk analysis by the Investment Adviser taking into account CSSF rules on counterparty selection, and whose short-term and long-term ratings so rated by Standard & Poor's or Moody's Investor Services or Fitch Ratings must not be lower than such level of short-term and long-term ratings determined by the Investment Adviser to Aberdeen Global.

80% of the gross income generated from any securities lending transaction will accrue to the relevant Fund, while 20% will be paid to the security clearing body or financial institution arranging the securities lending transaction for the relevant Funds. Details of such amounts and the security clearing body or financial institution arranging the securities lending transaction will be disclosed in the interim and annual financial reports of Aberdeen Global.

All securities lending transactions will be entered into on arms-length commercial terms. The written consent of the Board is required for any such transactions that are entered into with the Investment Manager or Investment Adviser or its Connected Persons.

The counterparties to the transactions described in (a) and (b) above must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by Community law and specialised in this type of transaction. In respect of securities loans and in accordance with its collateral policy, Aberdeen Global will ensure that its counterparty delivers and each day maintains collateral of at least the market value of the securities lent. Such collateral must be in the form of:

- (i) liquid assets (i.e., cash and short term bank certificates, money market instruments as defined in Council Directive 2007/16/EC of 19 March 2007) and their equivalent (including letters of credit and a guarantee at first-demand given by a first class credit institution not affiliated to the counterparty);
- (ii) bonds issued or guaranteed by a Member State of the OECD or their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope;
- (iii) shares or units issued by money market UCIs calculating a net asset value on a daily basis and assigned a rating of AAA or its equivalent;
- (iv) shares or units issued by UCITS investing mainly in bonds/shares satisfying the conditions under (v) and (vi) hereafter;
- (v) bonds issued or guaranteed by first class issuers offering an adequate liquidity; or
- (vi) shares admitted to or dealt in on a Regulated Market or on a stock exchange of a Member State of the OECD, provided that these shares are included in a main index.

The proportion of the income that will accrue to a particular Fund from all securities lending transactions cannot be changed without the Board's consent.

Any transaction expenses in connection with any securities lending transaction will be met by the Fund concerned.

For the valuation of the collateral presenting a significant risk of value fluctuation, Aberdeen Global will apply prudent discount rates. A discount of 20% will be applied for shares or convertible bonds which are comprised in a main index, and 15% for Investment Grade Debt and Debt-Related Securities issued by a non-governmental issuer. Collateral in the form of cash deposits in a currency other than the currency of exposure is also subject to a discount of 10%.

As the case may be, cash collateral received by each Fund in relation to any of these transactions may be reinvested in a manner consistent with the investment objectives of such Fund in (a) shares or units issued by short-term money market undertakings for collective investment calculating a daily net asset value and being assigned a rating of AAA or its equivalent, (b) short-term bank deposits, (c) short-term bonds issued or guaranteed by an EU member state, Switzerland, Canada, Japan or the United States or by their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope, and (d) reverse repurchase agreement transactions according to the provisions described under section XII. Article 43. J) of ESMA Guidelines on ETFs and other UCITS issues released by the CSSF under CSSF Circular 13/559. Such reinvestment will be taken into account for the calculation of each concerned Fund's global exposure, in particular if it creates a leverage effect.

Financial Derivative Instruments

Each Fund of Aberdeen Global may, subject to the conditions and within the limits laid down in the Law and any present or future related Luxembourg laws or implementing regulations, circulars and CSSF positions (the "Regulations"), invest in financial derivative instruments for hedging and/or to manage foreign exchange risks. For certain Funds, where such techniques and instruments are also used for investment purposes, this must be set out in their investment objectives and policies. Financial derivative instruments include, but are not limited to, futures, options, swaps (including, but not limited to, credit and credit-default, interest rate and inflation swaps), forward foreign currency contracts and credit linked notes. All Funds may enter into transactions which include but are not limited to interest rate, equity, index and government bond futures and the purchase and writing of call and put options on securities, securities indices, government bond futures, interest rate futures and swaps. New financial derivative instruments may be developed which may be suitable for use by Aberdeen Global. Aberdeen Global may employ such financial derivative instruments in accordance with the Regulations and collateral received will be according to its collateral policy.

The counterparties to such transactions must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by Community law and specialised in this type of transaction. In respect of OTC Financial Derivative Transactions, Aberdeen Global will receive collateral as specified in each of its ISDA Agreement. Such collateral will be in the form of cash. Collateral in the form of cash deposits in a currency other than the currency of exposure is also subject to a discount of 10%.

As the case may be, cash collateral received by each Fund in relation to Financial Derivative Instruments may be reinvested in a manner consistent with the investment objectives of such Fund in (a) shares or units issued by short-term money market undertakings for collective investment calculating a daily net asset value and being assigned a rating of AAA or its equivalent, (b) short-term bank deposits,

(c) short-term bonds issued or guaranteed by an EU member state, Switzerland, Canada, Japan or the United States or by their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope, and (d) reverse repurchase agreement transactions according to the provisions described under section XII. Article 43. J) of ESMA Guidelines on ETFs and other UCITS issues released by the CSSF under CSSF Circular 13/559. Such reinvestment will be taken into account for the calculation of each concerned Fund's global exposure, in particular if it creates a leverage effect.

RISK MANAGEMENT PROCESS

Aberdeen Global and the Management Company will employ a risk-management process which enables them to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Fund. Aberdeen Global and the Management Company will employ, if applicable, a process for accurate and independent assessment of the value of any OTC financial derivative instruments. The risk measurement and monitoring of the Funds will be carried out either using a value at risk (VaR) or a commitment approach. Funds which will either not use financial derivative instruments or limit their use of hedging strategies will be monitored using the commitment approach. The standard risk settings used to determine the VaR of the different sophisticated Funds are with a 99% confidence level and an analysis time horizon of one month (20 days).

Where it is possible to determine an appropriate risk benchmark for a Fund as indicated in the table below, the relevant Fund will apply a Relative VaR risk management approach which will measure the risk profile of each Fund against a reference portfolio or risk benchmark ("Risk Benchmark"). If for any reason it is not possible or appropriate to determine a Risk Benchmark for any Fund, then the Management Company will consider adopting an Absolute VaR risk management approach on all of a Fund's portfolio positions. The table below lists the Risk Benchmarks assigned to each Fund. The referenced Risk Benchmark may be subject to change, which shall be updated in this Prospectus at the next available opportunity. Information on the Risk Benchmark applicable to a Fund will be available upon request from the Management Company. Where a Fund's Risk Benchmark is based on a combination of indices, the proportion of each index will be indicated as a percentage of the Risk Benchmark.

The column entitled "Maximum" refers to the regulatory risk limits applied to Funds in accordance with their risk management approach. Under the relative VaR approach, the global exposure of a Fund is determined calculating the VaR of the Funds' current portfolio versus the VaR of the reference portfolio: the VaR of the Fund must be lower than twice the VaR of the reference portfolio (i.e.200%). In a case of a Fund for which an absolute VaR approach is used, the maximum absolute VaR that a Fund can have is 20% of its Net Asset Value (NAV). Under the commitment approach, a Fund's total exposure to financial derivative instruments is limited to 100% of Fund's NAV.

Where the commitment approach is used for calculation of global exposure or determination of an expected level of leverage, the calculation is in principle based on the conversion of each Financial Derivative Instrument position into the market value of an equivalent position in the underlying asset of that derivative, in accordance with the methods set out under applicable regulation.

^AThese Funds will be launched at a future date to be confirmed by the Directors of Aberdeen Global. Upon launch, a risk benchmark will be applied to the relevant Fund. Information on such risk benchmark will be available upon request from the Management Company and this Prospectus will be updated accordingly at the next available opportunity.

The expected maximum level of leverage per Fund for which a VaR risk management approach is used is set out below, which has been calculated using the "Sum of Notionals" of the derivatives used as well as the commitment approach calculation used for the Fund's global risk exposure. The "Sum of Notionals" calculation shows the total sum of the principal values of all derivatives used by the fund not taking into account any netting of derivative positions, whereas the commitment calculation converts each financial derivative instrument position into the market value of an equivalent position in the underlying asset of that financial derivative instrument.

The leverage is not expected to exceed the levels indicated below but investors should note that there is possibility of higher leverage levels in certain circumstances, e.g. where a Fund's portfolio manager may make more extensive use of financial derivative instruments for investment purposes (within the limits of each Fund's investment objective) as opposed to a more limited use for hedging purposes.

The expected levels of leverage indicated below reflect the use of all derivative instruments within the portfolio of a given Fund (where applicable). An expected level of leverage does not necessarily represent an increase of risk in the Fund as some of the derivative instruments used may even reduce the risk. Shareholders should note that the "Sum of Notionals" calculation method of the expected level of leverage does not make a distinction as to the intended use of a derivative e.g. being either hedging or investment purposes.

The "Sum of Notionals" calculation typically results in a higher leverage figure than for the commitment approach calculation predominantly due to the exclusion of any netting and/or hedging arrangements.

This may be varied within applicable limits if considered to be in the best interests of the Fund.

Appendix B

Calculation of Net Asset Value

1. NET ASSET VALUE

- (1) The Net Asset Value of each Class of Shares will be determined on each Dealing Day for the relevant Fund.
- (2) The Net Asset Value of each Class of Shares (expressed in its currency of denomination) will be determined by aggregating the value of the assets, and deducting the liabilities, of the Fund allocated to such Class. For this purpose the assets of Aberdeen Global shall be deemed to include:
 - (i) all cash in hand or on, or instructed to be placed on, deposit, including any interest accrued or to be accrued thereon;
 - (ii) all bills and demand notes and accounts receivable (including proceeds of securities sold but not yet delivered);
 - (iii) all bonds, time notes, shares, stock, debenture stocks, units/shares in undertakings for collective investment, subscription rights, warrants, options and other investments and securities owned or contracted for by Aberdeen Global;
 - (iv) all stock, stock dividends, cash dividends and cash distributions receivable by Aberdeen Global to the extent information thereon is reasonably available to Aberdeen Global (provided that Aberdeen Global may make adjustments with regard to fluctuations in the market value of securities caused by trading ex-dividend or ex-rights or by similar practices);
 - (v) all interest accrued on any interest-bearing securities owned by Aberdeen Global, except to the extent that such interest is included or reflected in the principal amount of such security; and
 - (vi) all other assets of every kind and nature, including prepaid expenses.

Likewise, the liabilities of Aberdeen Global shall be deemed to include:

- (i) all loans, bills and accounts payable;
- (ii) all accrued or payable administrative expenses (including management, custodian's and corporate agent's fees and other fees payable to representatives and agents of Aberdeen Global);
- (iii) all known liabilities, present and future, including all matured contractual obligations for payments of money or property, including the amount of any unpaid dividends declared by Aberdeen Global where the date of the valuation falls subsequent to the record date for determination of the persons entitled thereto;
- (iv) an appropriate provision for future taxes based on capital and income as at the date of the valuation and any other reserves authorised and approved by the Board of Directors; and
- (v) all other liabilities of Aberdeen Global of whatever kind and nature, actual or contingent, except liabilities represented by Shares in the relevant Class towards third parties.

The value of financial derivative instruments used to manage the currency exposure on the Base Currency Exposure Share Classes will be allocated to the appropriate Base Currency Exposure Share Class. Depending on performance, the value may be either an asset or a liability and will be included in the calculation of Net Asset Value accordingly.

For the purposes of valuing its assets, no account shall be taken of monies held by the Global Distributor on behalf of Aberdeen Global for payment of dividends to Shareholders and for the purposes of establishing its liabilities, Aberdeen Global may take into account all administrative and other expenses with a regular or periodical character by calculating them for the entire year or any other period and by dividing the amount concerned proportionately for the relevant fractions of such period.

The value of such assets shall be determined as follows:

- (1) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as Aberdeen Global may consider appropriate in such case to reflect the true value thereof;
- (2) the value of securities and/or financial derivative instruments which are listed on any official stock exchange or traded on any other organised market at the last available stock price. Where such securities or other assets are quoted or dealt in or on more than one stock exchange or other organised markets, the directors shall select the principal of such stock exchanges or markets for such purposes;
- (3) in the event that any of the securities held in Aberdeen Global's portfolio on the relevant day are not listed on any stock exchange or traded on any organised market or if with respect to securities listed on any stock exchange or traded on any other organised market, the price as determined pursuant to sub-paragraph (2) is not, in the opinion of the Board of Directors, representative of the fair market value of the relevant securities, the value of such securities will be determined prudently and in good faith based on the reasonably foreseeable sales price or any other appropriate valuation principles;
- (4) the financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market will be valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by Aberdeen Global;
- (5) units or shares in underlying open-ended investment funds shall normally be valued at their last available net asset value reduced by any applicable charges. In accordance with point (7) below units or shares in underlying open-ended investment funds may be valued at their indicative price (as described below);

- (6) liquid assets and Money Market Instruments may be valued at market value plus any accrued interest or on an amortised cost basis as determined by the Board of Directors. All other assets, where practice allows, may be valued in the same manner. If the method of valuation on an amortised cost basis is used, the portfolio holding will be reviewed from time to time under the direction of the Board of Directors to determine whether a deviation exists between the Net Asset Value calculated using the market quotation and that calculated on an amortised cost basis. If a deviation exists which may result in a material dilution or other unfair result to investors or existing shareholders, appropriate corrective action will be taken including, if necessary, the calculation of the Net Asset Value by using available market quotations; and
- (7) in the event that the above mentioned calculation methods are inappropriate or misleading, the Board of Directors may adjust the value of any investment or permit some other method of valuation to be used for the assets of Aberdeen Global if it considers that the circumstances justify that such adjustment or other method of valuation should be adopted to reflect more fairly the value of such investments.

2. INDICATIVE PRICING

A Fund can invest in other collective investment schemes which themselves may not price and deal on a daily basis. The administrator of the underlying collective investment scheme may issue indicative prices on a more frequent basis than the official dealing prices for those collective investment schemes. In order to value a Fund, the Administrator may use these indicative prices where they are more up to date than the official dealing price of the underlying collective investment scheme. It should be noted that a Fund cannot subscribe or redeem its holding(s) in the underlying collective investment schemes at an indicative price. Such subscriptions and redemptions can only be traded at the official dealing prices of the underlying collective investment scheme.

3. SHARE PRICES AND DILUTION ADJUSTMENT

Subject to any applicable charges, the price of Shares of any Class in any Fund on a particular Dealing Day shall be the "Share Price" for that Class, being equal to the Net Asset Value of that Class on that day, adjusted when required to reflect any dealing charges (which shall include any commission and/or other costs) and/or any bid/offer spread that the Board of Directors believes are appropriate to take into account in respect of that Class, divided by the number of Shares of that Class then in issue or deemed to be in issue. Such dealing charges will reflect costs and liabilities not included in the calculation of the Net Asset Value of the relevant Class. The dealing charges shall not exceed 1.5% of the Net Asset Value of the relevant Class whilst the bid/offer spread will represent the underlying spread in the securities that the Fund is invested into on the Dealing Day in question.

The Share Price may be rounded to up to four decimal places in the currency of denomination. In all cases, transaction values may be rounded to up to the second decimal place in the currency of denomination.

The Net Asset Value of Class A, Class B, Class C, Class D, Class E, Class F, Class G, Class H, Class I, Class L, Class M, Class N, Class O, Class P, Class R, Class S, Class U, Class V, Class X, Class Y and Class Z Shares and the base currency exposure versions of those Shares in the same Fund may differ as a result of the differing charging structures and policy applicable to each Class.

Potential investors should also note that a dilution adjustment may be applied and should refer to the section "Dilution Adjustment" for further information.

4. CALCULATION OF EXCHANGE (OR SWITCHING) PRICES

Shareholders in a Fund are entitled to exchange some or all of their shareholdings into Shares of a different Class in the same or another Fund or Shares of the same Class in another Fund, provided they meet the qualifications for investment in the different Class, by giving notice to the Transfer Agent, in accordance with the requirements and procedure detailed in the section "Exchange (or Switching) of Shares" above. Holders of Class B or Class C Shares may only switch into Class B and Class C Shares, respectively, in another Fund which issues these Classes of Share. Investor's attention is specifically drawn to the particular switching arrangements applicable to Aberdeen Global - Brazil Bond Fund, Aberdeen Global - Brazil Equity Fund, Aberdeen Global - China A Share Equity Fund, Aberdeen Global - Flexible Equity Fund, Aberdeen Global - Frontier Markets Bond Fund, Aberdeen Global - Frontier Markets Equity Fund, Aberdeen Global - Emerging Markets Infrastructure Equity Fund and Aberdeen Global - Multi-Strategy Fund.

The basis of the switch is related to the respective Share Prices of the two Funds or Share Classes concerned. The number of Shares into which Shareholders may switch their existing Shares will be calculated by the Transfer Agent on behalf of Aberdeen Global, in accordance with the following formula:

$$A = \frac{((B \times C) - D) \times E}{F}$$

where

A is the number of Shares in the new Fund or Share Class to which the Shareholder shall become entitled;

B is the number of Shares in the original Fund or Share Class which the Shareholder has requested to be switched;

C is the Share Price of a Share in the original Fund or Share Class;

D is the switching charge (if any) payable;

E when the original Fund or Share Class and the new Fund or Share Class are not designated in the same currency, is the currency exchange rate on the relevant Dealing Day, deemed appropriate by the Investment Manager, used to convert Funds or Share Classes denominated in different base currencies against each other and, in any other case, is 1; and

F is the Share Price of a Share in the new Fund or Share Class.

Shares rounded to up to four decimal places, if appropriate, will be issued on switching.

Monies to which Shareholders are entitled will, unless claimed prior to the close of the winding-up, be deposited at the Caisse de Consignation in Luxembourg to be held on their behalf. With the consent of Shareholders expressed in accordance with Luxembourg law, the liquidators may transfer all assets and liabilities of Aberdeen Global to a Luxembourg undertaking for collective investment in transferable securities against the issue to Shareholders of Shares or certificates of such entity proportionate to their shareholdings in Aberdeen Global.

(ii) If Aberdeen Global is to be voluntarily liquidated, its liquidation will be carried out in accordance with the provisions of the Law which specifies the steps to be taken to enable Shareholders to participate in the liquidation distribution(s) and in that regard provides for deposit in escrow at the Caisse de Consignation in Luxembourg of any such amounts as have not been claimed by any Shareholders prior to the close of liquidation. - (ii) The Shareholders may resolve to redeem all outstanding Shares of any Class or Fund subject to the sanction of a resolution passed at a separate General Meeting of the Shareholders of that Fund or Class by a simple majority of the votes cast.

- (iii) Termination and Amalgamation of Funds.

Termination of a Fund by compulsory redemption of all relevant shares for reason other than those mentioned in 7 (b) below, may be effected only upon its prior approval of the Shareholders of the Fund to be terminated, at a duly convened Fund meeting which may be validly held without a quorum and decided by a simple majority of the votes cast

Any merger of a Fund with another Fund of Aberdeen Global or with another UCITS (whether subject to Luxembourg law or not) shall be decided by the Board of Directors unless the Board of Directors decides to submit the decision for such merger to the meeting of Shareholders of the Fund concerned. In the latter case, no quorum is required for such meeting and the decision for such merger is taken by a simple majority of the votes cast. In case of a merger of a Fund where, as a result, Aberdeen Global ceases to exist, the merger shall, notwithstanding the foregoing, be decided by a meeting of Shareholders resolving in accordance with the quorum and majority requirements for the amendment of the Articles of Incorporation.

- (iv) Subject to the Articles of Incorporation, the Board of Directors may impose or relax restrictions on any Shares, Class or Fund (other than any restriction on transfer but including the requirement that Shares be issued only in registered form and/or bear such legends as the Directors may feel appropriate but not necessarily on all Shares within the same Fund or Class), or require redemption of

Shares, as they may think necessary to ensure that Shares are neither acquired nor held by or on behalf of any person in breach of the law or requirements of any country or governmental or regulatory authority, or which might have adverse taxation or other pecuniary consequences for Aberdeen Global, including a requirement to register under any securities or investment or similar laws or requirements of any country or authority. The Directors may in this connection require a Shareholder to provide such information as they may consider necessary to establish whether he is the beneficial owner of the Shares which he holds. Without limiting the generality of the foregoing, the Directors may impose (and currently have imposed) restrictions on Shares which are to be issued to United States persons (as defined in the section "Important Information" above) including restrictions as to the holding, transfer, and switching of such shares, which will be known as "Restricted Shares". Shares which are not Restricted Shares may be required to be redeemed if the Directors have reason to believe that they are held by United States persons. If it shall come to the attention of the Directors at any time that Shares are beneficially owned by a United States person, either alone or in conjunction with any other person, Aberdeen Global shall have the right compulsorily to redeem such Shares.

- (v) Where a resolution affects more than one Class of Shares or Funds and the resolution is such as to change the respective rights thereof, the resolution must, in order to be valid be approved separately by Shareholders of such Class of Shares or Fund in accordance with the quorum and majority requirements provided for by article 10 of the Articles of Incorporation.

Two or more Classes of Shares or Funds may be treated as a single Class or Fund if such Classes or Funds would be affected in the same way by the proposals requiring the approval of holders of Shares relating to the separate Classes or Funds.

There are no age limits or share qualifications for Directors.

The Directors are vested with all powers to perform all acts necessary or useful for accomplishing Aberdeen Global's objectives. In particular the Directors have power to appoint any entity to act as management company, custodian or any entity to act as distributor, administrator, investment manager or investment adviser and such other representatives and agents as they may consider necessary.

No contract or other transaction between Aberdeen Global and any other company or firm shall be affected or invalidated by the fact that any one or more of the Directors or officers of Aberdeen Global has a material interest in, or is a director, associate, officer or employee of, that other company or firm.

Save for any item described in this Prospectus and subject to the preceding paragraph, if any Director or officer of Aberdeen Global has any material interest in any transaction of Aberdeen Global, that Director or officer shall declare such material interest to the Board and shall not be counted in the quorum of any meeting of the Directors to consider or vote on any such transaction and he shall not vote on any such transaction and such transaction and the Director's or officer's interest therein shall be reported to the next succeeding meeting of Shareholders.

Directors shall account to Aberdeen Global for any fees resulting from appointments held by them as a result of investments held by Aberdeen Global. Aberdeen Global shall indemnify any Director or officer against expenses reasonably incurred by him in connection with any proceedings to which he may be made a party by reason of such position in Aberdeen Global, except where due to gross negligence or wilful misconduct on his part.

At no time will a majority of the Directors be resident in the UK nor will Directors resident in the UK form a valid quorum for a Board meeting.

7. COMPULSORY REDEMPTIONS-DISSOLUTION

(a) Minimum Valuation of Aberdeen Global

- (1) If at any time the aggregate of the Net Asset Values of all Shares falls below two-thirds of the minimum capital for the time being prescribed by Law, the Directors must submit the question of dissolution of Aberdeen Global to a General Meeting, acting without minimum quorum requirement and deciding by a simple majority vote of the votes cast at such meeting.
- (2) If at any time the aggregate Net Asset Values of all Shares is less than one-quarter of the minimum capital for the time being prescribed by Law, the Directors must submit the question of dissolution of Aberdeen Global to a General Meeting, acting without minimum quorum requirement and deciding, by a vote of one-quarter of the votes cast at such meeting.

(b) Minimum Valuation of the Funds

In the event that for a period of 30 consecutive days, for any reason the Net Asset Value of any Fund is lower than US\$10,000,000 or in the case of a Class denominated in a currency other than U.S. Dollars, the equivalent in that currency of such amount, or in case the Board of Directors deems it appropriate because of changes in the economic or political situation affecting Aberdeen Global or the relevant Fund, or because it is in the best interests of the relevant Shareholders, the Board of Directors may redeem all shares of the relevant Fund at a price reflecting the anticipated realisation and liquidation costs on closing of the relevant Fund, but with no redemption charge.

8. DEFERRAL OF REDEMPTIONS

Aberdeen Global may limit the total number of Shares of any Fund which may be redeemed on any Dealing Day to a number representing 10% of the net assets of that Fund. Aberdeen Global will ensure the consistent treatment of all holders who have sought to redeem shares at any Dealing Day at which redemptions are deferred. Aberdeen Global will pro-rata all such redemption requests to the stated level (i.e. 10% of the Fund's value) and will defer the remainder until the next Dealing Day. Aberdeen Global will also ensure that all deals relating to an earlier Dealing Day are completed before those relating to a later Dealing Day are considered.

9. IN SPECIE SUBSCRIPTIONS & REDEMPTIONS

- (1) Shares may, at the discretion of the Board of Directors, be issued in consideration of the vesting in Aberdeen Global of securities acceptable to it and having a value (after deducting any relevant charges and expenses) equal to the relevant Shares. Such securities will be independently valued in accordance with Luxembourg law by a special report of a Luxembourg approved statutory auditor, if required. The specific costs for such subscription in specie, will be borne by the subscriber or by a third party, but will not be borne by Aberdeen Global unless the Board of Directors considers that the subscription in specie is in the interests of Aberdeen Global or made to protect the interests of Aberdeen Global.
- (2) Redemptions are normally effected in cash. However, Aberdeen Global has power (subject to the consent of the Shareholder) to satisfy redemptions in specie by allocating to the holder investments from the portfolio of the relevant Fund equal in value (calculated in the manner described in Appendix B) to the value of the holding to be redeemed. The Shareholder may elect to have the assets allocated to him for the in-specie redemption sold for cash. The cash issued to the Shareholder would therefore be net of dealing costs. The nature and type of assets to be transferred in such cases will be determined on a fair and reasonable basis and in circumstances which the Directors consider do not prejudice the interests of the other Shareholders in the relevant Fund. This power will be exercised only rarely. However, it may result in the Shareholder receiving investments per Share redeemed which may be worth less or more than the Share Price of each such Share. The specific costs for such redemptions in specie, (such as but not limited to a report, if required, by Aberdeen Global's auditors) will be borne by the redeeming Shareholders or by a third party, but will not be borne by Aberdeen Global unless the Board of Directors considers that the redemption in specie is in the interests of Aberdeen Global or made to protect the interests of Aberdeen Global.

10. SUSPENSION

Suspension of the Calculation of the Net Asset Value and Allotment, Issue, Subscription, Switching and Redemption of Shares.

Aberdeen Global may suspend the allotment, issue and redemption of Shares relating to a Fund, the right to switch Shares into those of another Fund and the calculation of the Net Asset Value of any Class:

- (a) during any period when any market or stock exchange on which a material part of the investments of the relevant Fund for the time being is quoted, is closed (otherwise than for ordinary holidays), or during which dealings are substantially restricted or suspended;
- (b) during the existence of any state of affairs as a result of which disposal or valuation of assets owned by Aberdeen Global attributable to such Fund would be impracticable;
- (c) during any breakdown in or restriction in the use of the means of communication normally employed to determine the price or value of any of the investments attributable to such Fund or the current prices or values on any stock exchange;
- (d) during any period when Aberdeen Global is unable to repatriate funds for the purpose of making payments on the redemption of such Shares or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of such Shares cannot in the opinion of the Directors be effected at normal rates of exchange;
- (e) during any period when in the opinion of the Directors of Aberdeen Global there exists unusual circumstances where it would be impractical or unfair towards the Shareholders to continue dealing in the Shares of Aberdeen Global or of any Fund or any other circumstance or circumstances where a failure to do so might result in the Shareholders of Aberdeen Global, a Fund or a Class of Shares incurring any liability to taxation or suffering other pecuniary disadvantages or other detriment which the Shareholders of Aberdeen Global, a Fund or a Class of Shares might not otherwise have suffered;
- (f) if Aberdeen Global, a Fund or a Class of Shares is being or may be wound-up, on or following the date on which such decision is taken by the Board of Directors or notice is given to Shareholders of a general meeting of Shareholders at which a resolution to wind-up Aberdeen Global, a Fund or a Class of Shares is to be proposed;
- (g) in the case of a merger of Aberdeen Global or a Fund, if the Board of Directors deems this to be necessary and in the best interest of Shareholders; or
- (h) in the case of a suspension of the calculation of the net asset value of one or several funds in which a Fund has invested a substantial portion of assets.

Shareholders who have requested switching or redemption of their Shares will be promptly notified in writing of any such suspension and of the termination thereof.

The Board of Directors may also make public such suspension in such manner as it deems appropriate.

Details of the beginning and end of any period of suspension (except for customary closing of stock exchanges for not more than three days) will be made available at the registered office of Aberdeen Global and at the office of the Global Distributor. Notice thereof will also be given to any Shareholder lodging a request for switching or redemption of Shares.

11. TRANSFERS

Transfers of Shares may normally be effected by delivery to Aberdeen Global of an instrument of transfer in appropriate form.

12. AMENDMENT OF THE ARTICLES OF INCORPORATION

The Articles of Incorporation may be amended at any time by a resolution of a General Meeting of Shareholders subject to the quorum and voting requirements provided by Luxembourg law and by the Articles of Incorporation. Written notice to Shareholders of the effectiveness of each amendment to the Articles of Incorporation shall be provided with the next report following its effectiveness. Such notice shall either state the text of the amendment or summarise its content and provide that the complete text of the amendment will be sent to any Shareholder upon request.

To amend the Articles of Incorporation or to dissolve Aberdeen Global a resolution must be passed by the General Meeting with a majority consisting of two thirds of the votes cast at such meeting.

In those cases where a General Meeting is to be held to amend the Articles of Incorporation of Aberdeen Global, the following shall apply by way of additional rules for the conduct of business at such meeting:

- (a) Shareholders may be represented by proxies appointed in writing;
- (b) votes shall be proportionate to the number of Shares held by the person participating in the vote;
- (c) the quorum and majorities shall be as laid down by Luxembourg law;
- (d) if there is a possibility of a conflict of interest between holders of Shares in different Classes or Funds, or the Board of Directors determines that it would be in the best interests of holders of Shares in any particular Class or Fund, separate meetings of the Shareholders relating to each Class or Fund shall be organised at the time of the General Meeting called pursuant to the Articles of Incorporation and no such special amendment of the Articles of Incorporation shall be made if it is not also approved by a resolution of the Shareholders in the affected Class or Fund; and

- (e) the Transfer Agent, Administrator, Investment Manager and/or the Custodian and their Connected Persons shall not be entitled to vote in respect of any Shares beneficially held by it or them (as the case may be) on any resolution proposed at any meeting of the Shareholders of Aberdeen Global when the Transfer Agent, Administrator, Investment Manager, Custodian or any of their Connected Persons has a material interest in such resolution. In any case where persons are restricted from voting Shares in accordance with the above arrangements they shall not be counted in the quorum of such meeting.

13. DEALINGS IN SHARES BY THE GLOBAL DISTRIBUTOR OR THE UK DISTRIBUTOR & PAYMENT OF DIVIDENDS

- (1) The Global Distributor or the UK Distributor may, as principal, acquire and hold Shares and may at their sole discretion satisfy, in whole or in part, an application or request:
 - (a) for the purchase of Shares, by effecting a transfer to the applicant, at the relevant Share Price plus any applicable initial charge, of Shares owned by the Global Distributor or the UK Distributor; or
 - (b) for the redemption of Shares, by buying such Shares from the Shareholder at the relevant Share Price.
- (2) The Global Distributor or the UK Distributor will forthwith notify the Transfer Agent of any such transactions effected by it so as to update the share register and enable the Transfer Agent to send a Share confirmation to the investor.
- (3) On any date for the payment of dividends Aberdeen Global shall make payment thereof to the relevant Shareholders. To the extent such monies remain unclaimed they shall be held by the Transfer Agent on behalf of the relevant Shareholder, without any liability to account for interest thereon, and shall be forfeited within five years of their due date and revert to the relevant Fund.

An initial sales charge of 6.38% is currently levied by the Board of Directors on all investments in Class F and Class G Shares, although the Board of Directors reserves the right, at its discretion, to direct the Global Distributor to apply or remove a waiver of such initial sales charge from time to time and for a particular period of time and/or for particular individuals or groups of investors. The initial sales charge levied in respect of Class F and Class G Shares shall be collected for the benefit of the relevant Fund of Aberdeen Global.

An initial charge of up to 6.38% may also be applied for investment into Class H and Class I Shares.

CONTINGENT DEFERRED SALES CHARGE

A contingent deferred sales charge only applies in respect of Class C Shares.

A contingent deferred sales charge of 1.00% of the Share Price of the Shares being redeemed is imposed on Class C Shares and the base currency exposure versions thereof, if the Shareholder redeems their Shares within one year of purchase.

The contingent deferred sales charge will be calculated as a percentage of the lesser of the relevant Share Price of the Shares on the date of redemption or the date of issue, exclusive of reinvestments.

In determining whether a contingent deferred sales charge is applicable to the proceeds of a redemption, the calculation will be made in the manner which results in the lowest possible charge. Thus, it will be assumed that the Class C Shares (or the base currency exposure versions thereof) first being redeemed are those Shares held by the Shareholder which are not subject to a contingent deferred sales charge then, after that, those which have been held by the Shareholder for the longest period of time.

REDEMPTION CHARGES

In addition to other charges and adjustments referred to in this Prospectus, the following redemption charges apply in respect of the Aberdeen Global - Frontier Markets Equity Fund. The proceeds of any redemption of Shares in the Aberdeen Global - Frontier Markets Equity Fund, by a Shareholder will be reduced in accordance with the following percentage scale. This represents a reducing redemption charge liability for Shareholders in the Aberdeen Global - Frontier Markets Equity Fund, and will be calculated in the manner which results in the lowest possible charge on the assumption that the first shares acquired by the Shareholder are the first shares sold by that Shareholder. The scale is as follows:

Year of Redemption	Redemption Charge as a Percentage of Relevant Share Price
	Aberdeen Global - Frontier Markets Equity Fund
Within 6 months of purchase	5.0%
After 6 months but within 1 full year of purchase	5.0%
After 1 full year but within 2 full years of purchase	3.0%
After 2 full years but within 3 full years of purchase	1.0%
After 3 full years of purchase	None

Appendix F

Investment Through the Mauritian Subsidiary

1. INVESTMENT THROUGH THE MAURITIAN SUBSIDIARY

It is not the intention to hold directly investments in India made for the Aberdeen Global – Indian Equity Fund. Instead, Aberdeen Global will hold investments through Aberdeen Global Indian Equity (Mauritius) Limited (the “Mauritian Subsidiary”), its wholly-owned subsidiary company. The Mauritian Subsidiary will hold all of the Aberdeen Global – Indian Equity Fund’s investments in India. The Custodian holds the assets and shares of the Mauritian Subsidiary.

Mauritius is a widely used jurisdiction for investing on a collective basis into India. Hence it has developed an infrastructure to support such vehicles encompassing the full range of administration services. The Mauritian Subsidiary was established to benefit from such infrastructure in a time zone which is in between that of India and Luxembourg. Further, it is expected that the Mauritian Subsidiary should be governed by the provisions of the India- Mauritius Double Tax Avoidance Treaty. If it is no longer beneficial to invest indirectly through the Mauritian Subsidiary, Aberdeen Global – Indian Equity Fund may elect to invest directly in India or through another suitable vehicle in any jurisdiction.

Aberdeen Global Indian Equity (Mauritius) Limited was incorporated on 13 September 1996 as a limited liability company under the Companies Act 1984 and is registered as an Offshore Company under the Mauritius Offshore Business Activities Act 1992 with “ordinary status”. The Mauritian Subsidiary is a wholly owned subsidiary of Aberdeen Global. The Mauritian Subsidiary has been granted approval by the Securities and Exchange Board of India (“SEBI”) as a sub-account of Aberdeen Asset Managers Limited. Aberdeen Asset Managers Limited is registered with SEBI as an FII.

Aberdeen Global – Indian Equity Fund is authorised to invest only in accordance with the investment objective, policies and restrictions set out in this Prospectus. Aberdeen Global – Indian Equity Fund will advance monies to the Mauritian Subsidiary principally by means of subscription for shares, but may also enter into loans, debt instruments and convertible debt instruments of all kinds to the extent permitted by the Regulations.

The Aberdeen Global – Indian Equity Fund and the Mauritian Subsidiary are viewed as one entity for compliance with the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission in Hong Kong.

2. MAURITIAN SUBSIDIARY

The operations of the Mauritian Subsidiary will be carried on under the supervision and direction of the board of directors of the Mauritian Subsidiary which will also be responsible for the monitoring of the Mauritian Subsidiary’s investments and performance and for providing advisory services to the exclusive benefit of Aberdeen Global, including in relation to massive redemptions in the Fund. The investment policy of the Mauritian Subsidiary will be the same as that of the Aberdeen Global – Indian Equity Fund as set out in the section “Investment Objectives and Policies”. The board of directors of the Mauritian Subsidiary comprises individuals with extensive experience in financial markets.

The board of directors of the Mauritian Subsidiary will comprise at least two locally resident Mauritius directors. Two directors who are present in Mauritius will be required for a quorum of the Mauritian Subsidiary. The directors of Aberdeen Global form the majority on the board of the Mauritian Subsidiary.

The board of directors of the Mauritian Subsidiary will meet at least once each year in Mauritius to approve the annual accounts. Any other matters of strategic importance to the Mauritian Subsidiary will also be considered at such board meetings.

At the regular board meetings, the directors of the Mauritian Subsidiary will review the investment performance of the Mauritian Subsidiary and, in conjunction with the Investment Manager, develop investment strategies for the following half-yearly period. The board will, inter-alia, confirm allotment of shares, approve the use of the company seal, determine the date and venue of the Annual General Meeting of the Shareholders of the Mauritian Subsidiary and instruct the company secretary to make appropriate arrangements. The board will ensure that appropriate agreements/contracts are executed with the different agencies that will provide services to the Mauritian Subsidiary.

The board of the Mauritian Subsidiary will review any non-routine operational matters and will expect to be advised by its legal advisers, auditors and administrators on any changes in the regulatory and tax environment which may impact on the Mauritian Subsidiary.

Other board meetings of the Mauritian Subsidiary, which are of a more routine nature, may be conducted by telephone conference call, with at least two resident directors present in Mauritius. Such meetings will be chaired from Mauritius.

The Mauritian Subsidiary will:

- provide the Financial Services Commission (the FSC) with this Prospectus, the Memorandum and Articles of Association and other documents necessary to effect registration of the Mauritian Subsidiary as an offshore company, the investment plans and the operational agreements concerning the management, custodians, advisers and other participants in the Fund and the Mauritian Subsidiary and inform it of any substantial changes and modifications in the documents;
- provide the FSC with a copy of any authorisation/permission/consent required from any supervisory body in relation to the conduct and implementation of the Mauritian Subsidiary;
- have its registered office in Mauritius;
- maintain its banking transactions through a bank account in Mauritius;
- hold its directors’ meetings in Mauritius;
- retain a company secretary resident in Mauritius;
- maintain a set of accounting records in Mauritius;
- cause its Net Asset Value calculation to be prepared and signed in Mauritius;
- provide the FSC with reports on investment performance on a quarterly basis;

- file a copy of its annual audited accounts with the FSC within six months after the year end;
- comply with such conditions as may from time to time be adopted and imposed in relation to the Mauritian Subsidiary under applicable Mauritian law; and
- in general, provide such other information as the FSC may require from time to time.

The use of the Mauritian Subsidiary and the tax treaty was decided after review of the law and practice in force in India and Mauritius at inception as understood by the Directors after making reasonable enquiries.

It is subject to any future changes and any such changes may adversely affect the returns of the Aberdeen Global - Indian Equity Fund. This includes any circumstances where the India/Mauritius double taxation treaty may not apply or cases to be applied, as a result of, inter alia, any future ruling by the Indian tax authorities. The Indian Government has recently indicated that they will be heavily scrutinizing an entity's substance in Mauritius if the entity intends to rely on the India-Mauritius tax treaty. Following that announcement, the Investment Adviser has been seeking legal advice regarding what the required substance standards are expected to be and whether or not the Mauritian Subsidiary will comply with those standards. If it is determined that the Mauritian Subsidiary's substance in Mauritius is insufficient under the new standards, the Indian investments of the Aberdeen Global - Indian Equity Fund may be subject to an Indian capital gains tax unless substance in Mauritius is increased or a suitable alternative structure is identified.

Should the treaty not be applied, interest earned on securities listed on the Indian Stock Exchange (earned by the Mauritian Subsidiary being treated as a Foreign Institutional Investor) would be subject to tax at a rate of 20%. Capital gains on the disposal of such investments would be subject to tax at rates of 10% or 30% in respect of listed Indian Securities depending on the length of time the investment has been held.

3. MAURITIAN ADMINISTRATOR

The Mauritian Subsidiary has appointed CIM Fund Services Limited, Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius, to act as administrator, secretary and registrar of the Mauritian Subsidiary.
